### 2.7. Principles of work

#### 2.7.1. General Matter

- Dejavato will do its best to respect and follow the standard procedures and principals of work of the networks it is member of and cooperate with: the CCIVS and NVDA Inter-Regional Exchange procedures, the Alliance Guidelines and ICYE Guidelines. In general the Foundation will do its best to organize projects taking profit of the experience of its director, members and supporters. Please help us in organizing good quality projects by sending us your comments and those of your volunteers.
- During the project (starting from the arrival of the volunteers) Dejavato will do its best to support the volunteers and to facilitate constructive and educational experiences. However, our projects are organized according to Indonesian standards of living and culture and the volunteers will need to adapt to simple living conditions and local food. In our projects, such as in any Indonesian family, volunteers will eat rice three times a day, shower with cold water and use local style toilets.
- We expect the sending organisations to systematically provide the volunteers with our documentation (workcamp program, workcamp infosheet, national profile, travel guidance and volunteer agreement) and at least introduce International Voluntary Service fundamental principles. We recommend holding pre-departure trainings for your participants and introducing the basis of Intercultural learning and cultural diversity, non violent communication, problem solving, conflict management, and active participation to a voluntary service project. The philosophy of volunteerism is the base of our work here and we expect your volunteer to understand, share and participate to it actively.
- Most of our projects take place in villages or in closed contact with local Muslim communities and institutions. Drinking alcohol is not allowed / strictly prohibited in all circumstances under Dejavato's program especially when in the hosting family, at the project site or when volunteers are with children/students. Volunteers should be informed by their sending organization before departure and are requested to read our documents to find out more about the do's and do not's of Indonesian culture.

#### 2.7.2. Principles for group project (workcamp)

- All the projects presented in this brochure are international projects. We try to reach a maximum cultural diversity and gender balance in the composition of our groups but you might find more than 2 volunteers from the same country in the same project.
- All volunteer must apply Visa on Arrival

- All our projects are open to volunteer who are from 18 - 35 years old when the workcamp starts. Above 35 years old upon consultation.
- We are sorry NOT open for volunteer with many causes and conditions which can impair mobility and movement such as inability to use legs, arms, or the body trunk effectively because of paralysis, stiffness, pain or other impairment is common. People with mobility and movement impairments may find it difficult to participate when facing social and physical barriers especially in our project sites.
- We are NOT open for any mentally challenged participants and participants who had mentally challenged record due to lack of our capability in handling the people with mental disabilities. Our project also do not have facilities which can support participants with mental disabilities. We request the sending organization to be open, transparent in giving information about the participant's health and mental record. We prefer not to host the participants with mentally challenged and mentally challenged record such as autism, mental disabilities etc.
- The volunteers are expected to attend the whole duration of the project and any delays in the arrival or departure MUST be officially justified and announced in advance. The incoming officer and the camp leader will keep the right to cancel the inscription of a volunteer or not accept her/him on the camp for any unjustified or not announced delay superior to 24 hours after the arrival day. In most cases, the meeting point for the volunteers is at our office in Semarang (always check the final info sheet) or other city which is the closest to the project site. Late arrivals may complicate the arrangement of the travel to the project site. Dejavato likes to organize something for the volunteers to do as a group during their free time and weekends. This will be discussed during the orientation and the first days of the project. Depending on the activity, volunteers may need to cover their own expenses. Please inform your participants that personal plans should be only foreseen before or after the workcamp.
- All the volunteers are required to individually subscribe a private insurance for the whole duration of the project, covering third party liability, health care and repatriation. A proof of the subscription, will be required at the beginning of the camp by our camp leader. No exception will be allowed. Thanks to inform your volunteer in advance.
- The basic timetable on Dejavato's camps is about 30-35 hours of work per week, generally from Monday to Friday, but the necessities of the project can bring the volunteers to work some more (rarely less).
- The common languages of the workcamps will be English and Indonesian (bahasa). We encourage volunteers to learn a bit of basic Indonesian before arrival (please refer to our info sheets and info pack for more information). Low levels of English language should not discourage motivated volunteers as, in communication, "When there's a will, there's a way"
- In most of the projects, daily timetable and tasks, free time and global organization will be decided in common, facilitated by the coordinator following the needs of the project, and managed in teams. We expect on each workcamp to create a really strong team of volunteers, for the benefit of the project and the local community.
- There will always be at least one English-speaking Indonesian coordinator per camp and for the whole duration of the project and the volunteers will have an emergency number active 24/24 – 7/7 to use in case of major problem.
- Dejavato asks certain amount of the program fee for each project. The extra fee covers the overall project expenses (including allowance for the workcamp coordinator), the running costs of the Foundation, the preparation of the projects and the Dejavato education and care programs (a percentage of each fee is transferred to the Dejavato fund). In general, the use of the extra fee is organized as following: 40% for Dejavato running costs and administration, 5% for Dejavato charity fund and 55% for food, accommodation, and scheduled activities for the volunteers. The percentage above is not always fixed, depend on the situation and condition of the project. The fee IS NOT included the flight, insurance, and any other personal expenses.

- The payment should be paid upon on arrival in the meeting point in Indonesia. The volunteer MUST prepare the money in EURO currency from his/her home country. We do not accept any payment in other currency. If the volunteer pay in RUPIAH then must follow our fixed rate for 1 year which is 1 Euro = IDR 17.000. We set up this fixed rate for the programs due to unpredictable currency Euro fluctuation. If you don't want to pay higher in Rupiah then you MUST prepare in EURO.
- IMPORTANT - If the volunteer do not pay upon on arrival, then we will not let the volunteer to join our project for any reason. We will NOT accept any reason from volunteer if the loose money, loose wallet, credit card is blocked and any other reason.
- Volunteer SHOULD NOT buy flight ticket at least 2 months before the project start, to avoid the cancellation of the project due to lack of participant, please contact and confirm again to the organization for last update information. - All our projects are open to volunteer who are from 18 – 35 years old when the project starts. Above 35 years old upon consultation.
- Indonesia is a conservative country and especially when volunteers work in the local institution and community. We request the volunteers **no visible piercings on face, no visible tattoos**, wears clothing appropriate, common hair style (no colorful, dreadlock) and for those who are going for project related with the kids must attach Certificate Good Conduct from the police in the application. The volunteer should love to work with children, teenager and local people, open minded, be mature, respectful of local customs, tolerant, creative, flexible, patient, confidence and independent especially in motivating the students to speak up and be active in practicing conversation.
- Candidate should sign document project agreement, declaration of conduct and other documents requested by hosting organization. The form must be signed and sent back to Dejavato before coming to Indonesia.
- The projects are mainly related to education and health care. For the educational/teaching projects a minimum intermediate level of English (as much certified as possible) is required while for the health care projects the Foundation requires a proof that the applicants are medical students or practitioners.
- Volunteers will be supported by the local project responsible, a mentor (usually a Dejavato volunteer who is not involved in the project activities) and Dejavato office. Regular meeting

between the volunteer and the mentor will be organized and facilitated by the Foundation. The volunteers will have at their disposal an emergency number active 24/24 – 7/7 in case of major problem.

- We are sorry NOT open for volunteer with many causes and conditions which can impair mobility and movement such as inability to use legs, arms, or the body trunk effectively because of paralysis, stiffness, pain or other impairment is common. People with mobility and movement impairments may find it difficult to participate when facing social and physical barriers especially in our project sites.
- We are NOT open for any mentally challenged participants and participants who have mentally challenged record due to lack of our capability in handling the people with mental disabilities. Our project also do not have facilities which can support participants with mental disabilities. We request the sending organization to be open, transparent in giving information about the participant’s health and mental record. We prefer not to host the participants with mentally challenged and mentally challenged record such as autism, mental disabilities etc.
- Projects starts at the beginning and finishes at the end of the indicated months (please check the MLTV project list you find below). Due to the complication of visa regulation, the placements are between one to twelve months with the limitation of the days (**pay attention to the number of the days**) and we request the volunteers to contribute the visa extension cost partially with the condition as follows:

No	Duration of stay	Description	Cost	Remark
1	4 weeks (28 days)	No visa extension		
2	5 – 8 weeks (35 – 56 days)	No visa extension		
3	3 months ( <b>86 days</b> )	1 time visa ext	<b>40 Euro</b>	Pay in Cash
4	4 months ( <b>116 days</b> )	2 times visa ext	<b>80 Euro</b>	Pay in Cash
5	5 months ( <b>146 days</b> )	3 times visa ext	<b>120 Euro</b>	Pay in Cash
6	6 months ( <b>176 days</b> )	4 times visa ext	<b>160 Euro</b>	Pay in Cash
<p>After 6 months the volunteer MUST LEAVE the country to apply new visa again at Indonesian Embassy in the nearest country for example in Singapore. For those who will stay over 6 months then entering Indonesian again and repeat the same procedure as above as well as add more the additional visa extension cost.</p> <p><b>Special note:</b> For certain countries, the Indonesian Embassy needs approval confirmation document from the immigration office in Jakarta called <b>Telex Visa</b>. Dejavato will help to obtain this letter and the volunteer will be charged additional cost amount <b>EUR 50</b> per letter.</p>				

**PLEASE PAY ATTENTION!**

Volunteer should adjust your flight duration according to the days of your stay as below to avoid any problem with the immigration.

- Meeting point for MLTV volunteers is the Dejavato office in Semarang; the volunteers will receive detailed and complete information about the project, Indonesia and the way to the meeting point upon confirmation of the placement and non after 4 weeks before the beginning of the project.
- Each project can involve a maximum number of two volunteers at the same time.

Attention will be paid to the introduction to the life in a local Indonesian family.
- Most volunteers mostly will be hosted in local Indonesian families and receive three meals per day (rice with side vegetables and dishes). The accommodation will be simple and

- **IMPORTANT - If the volunteer do not pay upon on arrival, then Dejavato will not let the volunteer to join our project for any reason. We will NOT accept any reason from volunteer if they loose money, loose wallet, credit card is blocked and any other reason.**
- Dejavato requires the individual Mid-Long Term Volunteer to hold visa before entering Indonesia. The visa should be Social Culture Visit Visa Type 211 which can be applied from the closest Indonesian embassy. The visa will valid for 60 days and can be extended. **PROJECTS DESCRIPTION**  
**INTERNATIONAL WORKCAMP 2020 – 2021**

**DJ-2001    20 – 31 JUL 2020    WHV PATRIMONITO    PRAMBANAN TEMPLE    HERTG + EDU + YOUTH**

**Background:** Since 2008 Patrimonito has become our remarkable project focusing on heritage site preservation. We recently conduct Patrimonito project in Plaosan temple which also belongs to Prambanan temple compounds. Prambanan temple compounds is a UNESCO world heritage site in Indonesia which is one of the largest temple compounds in Southeast Asia. It was built in 9<sup>th</sup> century dedicated to the three great Hindu divinities (Shiva, Wishnu and Brahma). The Prambanan temple compounds consist of Prambanan temple (also called Loro Jonggrang), Sewu temple, Bubrah temple and Lumbung temple with total about 240 temples. The temples were damaged by earthquake in 2006 and volcano ashes from Kelud mountain eruption in 2014. Until then the site management try its best to preserve the temple by restoring the damaged temple and conducting a lot of activities in collaborating with UNESCO, government and stakeholders to support the preservation.

The volunteers will be introduced to the World Heritage Centre’s activities and campaign, the history and dynamics of world heritage sites worldwide. It aims at rendering its symbolic dimension to heritage through debates and reflections, contribute to the restoration and preservation of cultural heritage and/or improve accessibility and availability of information, raise the awareness of the local population and create a sense of “ownership ” and identification, and promote cultural heritage between international volunteers and organizations.

**Work:** Volunteers will have restoration work. Besides, before the restoration work, the volunteers will have one day orientation about how to do the restoration and given information about the history of the temple, so that the volunteers really gain a lot of knowledge about the temples and the process of restoration. As the volunteers live in the local community of Bugisan village, they also have activities in the local school with the local students. They will promote to the students how to preserve the temple and do some activities like students competition, culture exchange etc. The volunteers will also give campaign about world heritage preservation to the local community as well as the visitors related to the world heritage especially Prambanan temple compounds.

**Study theme:** The volunteers will be introduced to Prambanan temple compounds and learn about the value of history and culture. They will learn why and how this temple was built long time ago by visiting temples and heritages sites around. In this opportunity the volunteers will also be introduced to the Indonesian culture and customs in general, with a special focus on the Javanese particularities. Some cultural visits are also foreseen.

**Leisure Time:** Visit the nearby world heritage sites and temples of Prambanan and/or Yogyakarta City.

**Accommodation:** The volunteers will be accommodated in local host family (basic conditions, sleeping bag and mat needed), where they will also receive food. Prefer no vegan (strict vegetarian)

**Location:** Prambanan Temple Compounds, Klaten regency, Central Java province.

**Terminal:** Adisucipto International Airport (JOG) or Yogyakarta International Airport (YIA)

**Special Requirement:** The volunteers should accept all the rules and condition of the project. Volunteer is recommended NOT to buy flight ticket at least 2 months before the project start, to avoid the cancellation of the project due to lack of participant. Please contact and confirm again to the organization for last update information. The project will be run ONLY if the minimum participants are 5 people.

**Participant fee:** 260 € or 4.420.000 IDR/participant (flat rate 1€: 17.000 IDR). It covers food, accommodation, materials and local transport during the project. The fee must be paid in CASH upon arrival. Failure of full payment upon arrival, the participant is not allowed to join the project for any reason.

DJ-2002	20 – 28 JUL 2020	ELEPHANT CONSERVATION	WAY KAMBAS	ANIMAL CONSERVATION
DJ-2011	2 – 10 NOV 2020	ELEPHANT CONSERVATION	WAY KAMBAS	ANIMAL CONSERVATION
DJ-2013	11 – 19 JAN 2021	ELEPHANT CONSERVATION	WAY KAMBAS	ANIMAL CONSERVATION

**Background:** Currently the conflict between elephants and human are rising because they have less area to live. Elephants are being squeezed into smaller area, since the local farmer plant the crops and elephants like to destroy and eat them. As a result, the elephants frequently raid and destroy the crops which will cause a conflict between human and elephant. Due to this reason, local government and organization which concerns about the wild life are working together to save or conserve the elephants and reduce the conflict. This project aiming to assist local governmental office named Way Kambas National Park which located in Elephant Conservation Centre to conserve the sanctuary.

Our project IS NOT a safari place, but it is mostly as a place for elephant conservation which facing problem of critical decreasing population and threats due to illegal lodging which endanger their life. The PKG is located inside and managed by the *Balai Taman Nasional Way Kambas / BTNWK* (Way Kambas National Park) covering round 1.300 square kilometers in Lampung Province, Southern Sumatera Island. The park consists of swamp forest and lowland rain forest.

There are around 60 elephants with 60 mahouts for each (1 mahout responsible for 1 elephant). All of the elephants in the PKG are chained when they were in the stall during the night. The purpose of putting chain in one of their legs is for monitoring, handle the elephants when they are stress, to distinguish between the PKG's elephants and the wild one. The mahout using special tool called "gancu" (little iron hammer with curve point) to handle the elephant. The way how to use the *gancu* is by touching gently behind the elephant's ear and sometimes on its head.

**Work:** Volunteer will help local mahout (a person who takes care and train an elephant) daily to take care the elephant starting from bathing/showering, feeding, health checking and grassing the elephant. One local mahout will be accompanied by one volunteer in doing his daily job.

**Study theme:** The volunteers could learn about the animal's life and how local people take care of and handle the conservation.

**Leisure Time:** During free time, the volunteers will have opportunity to enjoy exciting attraction in Lampung such as beach, home industry, traditional market and fruit plantation.

**Accommodation:** The volunteers will be accommodated in Elephant Conservation Centre / kind of dormitory (basic conditions, sleeping bag and mat needed). Food will be provided with catering service. Also the volunteers will stay at the homestay in the village nearby the conservation center. Prefer no vegan (strict vegetarian)
