ABOUT EGYESEK

Egyesek Youth Association is a group of active, passionate and committed youth workers, trainers, coaches and volunteers. We contribute to communities where people are aware of their own freedom of choice, they do what they love and connect with each other peacefully.

We organize local and international youth projects for 18 years. By methods of non-formal learning we aim that young people explore their own strengths and resources using them consciously to fulfil their personal and professional life. To reach that, we do trainings and volunteer activities.

We support active young people, informal groups and youth workers, and promote volunteering. We are member of several international networks: CCIVS, Alliance of Voluntary Service Organizations and International Synergy Group.

We organize international youth trainings based on specific themes, such as personal and creativity development, dance, media, communication, coaching, improvisational theatre. We are active in hosting international volunteers for more than 10 years. We frequently organize short- and long-term EVS projects and also realize international voluntary camps, workcamps.

We gained many experiences in cooperating with local communities as we run grass root outreach youth work in one of the most disadvantaged regions of Hungary, Nógrád county, where international volunteers also support our activity for more than 6 years.

We have created an informal network among our local partners by working together in order to organize meaningful activities for local children and youngsters. As a great success of our fruitful cooperation, in 2017 many of them (youth organizations, municipalities, informal local groups) joined us in the world of workcamps and decided to host international volunteers and involve them in their activities.

Renovate with us!

Help us renovate our future charity shop and community café. InDaHouse Hungary works with underprivileged children and their families of 4 small Hungarian villages. With this charity shop they could get clothes, utensils and other goods easily and for a very low price which will improve their living conditions significantly and the community café will serve as a meeting point for them where they spend quality time together.

27/06/2020 - 12/07/2020

**Location: Hernádszentandrás , Hungary
code: EGY-20-02**

Min age: **16** (max. 3 teen places)

Max. age: **70**

Number of volunteers: **15**

Language: English

Partner:

InDaHouse Hungary works in one of the poorest and most disadvantaged regions in Hungary, Borsod-Abaúj-Zemplén County. Our volunteers hold individual and group sessions for underprivileged children to help them with their studies and develop their abilities. Our goal is that the kids who take part in our programme become independent, liable adults who are able to control their own life.

We have an Early Childhood Development Program for kids under 6, and we study individually with the older ones (from 6 to 18) to practice comprehension, mathematics and English. We also try to broaden their horizons with different activities e.g. hiking, dance lessons, video making courses, etc.

In the near future we would like to open a charity shop and a café in the village. We have two old buildings for these purposes that need renovation.

Working with volunteers from bigger cities and from abroad also help the local community to connect with different social groups and to be more open. <https://indahousehungary.hu/>

Work:

InDaHouse Hungary works in Hernádszentandrás, which is a small village with about 400 inhabitants.

In this village there are only 2 shops, they sell food and alcohol and some basic household goods. The locals can buy clothes and appliances in nearby towns, but the infrastructure is very poor so they cannot travel easily. InDaHouse wants to open a charity shop in Hernádszentandrás which will sell clothes, household goods and

appliances which they got as donation for a low price.

In addition they would like to run a community café because there is no community place where the youngsters or adults could spend time together (there is only a pub and a football pitch in the village). The young people and the mothers who stay at home with their kids need a place to meet and socialize with friends. There are 2 old houses that could be used for these purposes but they need renovation. We would like the participants of the

workcamp to be involved in renovation works. It will include tiling, flooring, plastering, painting, roof tiling, etc. We have a foreman who has the qualification and ability to break down the working processes for small tasks that everyone is able to carry out. No specific experience is required for this work. We expect this charity shop and community café to become a central place of the village where the inhabitants can meet, it can provide a voluntary workplace of the local youngsters and can be an interesting place for tourist.

Accommodation and food:

IDH Hungary has a Children and Volunteer Center which was built by volunteers from donations of individuals and companies. The accommodation will be there in big rooms of 6-8 beds. You will need to bring your own sleeping bag and towels. In the Center there is a big and well equipped kitchen. Volunteers will cook for themselves in turns. A group of 3 will be responsible for preparing the food every day. Every person has only one day cooking duty. The host will buy the raw materials, provide the utensils and help in everything. **Meals:** Vegetarian, gluten and lactose free food will be available.

Location and leisure:

Hernádszentandrás is located in a beautiful area in the North East of Hungary, close to the Slovakian border. The nearest big town is Miskolc, 40 kilometres away. The village has about

400 inhabitants.

There is a small shop and a pub in and a restaurant in the next village, Pere. On your free days you can visit Miskolc or Kosice, or the most famous Hungarian wine region: Tokaj. If you like nature you can hike up to the ruins of Regéc castle, Boldogkővárlja castle or to Zemplén-mountains which has one of the wildest forests in Hungary, with many nature sights.

Requirements: Extra fee: 20 EUR

Nearest airport: Budapest Airport (BUD) – *Liszt Ferenc International Airport*

Trains and buses: You need to get to Miskolc train station where we can pick you up. Trains depart once in every hour from Budapest Keleti station to Miskolc. You can check the timetable here:

Bánkitó Festival 2020

Every year, the best underground bands, theatres and the majority of the NGO scene gathers to a small lakeside village in Hungary. Participate in the country's leading socially conscious small festival as a volunteer!

06/07/2020 – 13/07/2020

Location: Bánk, Hungary

code: EGY-20-04

Min age: 18

Max. age: -

Number of volunteers: 20

Language: English

Partner:

Bánkitó is Hungary's biggest independent, socially conscious, cultural and community festival with a wide range of programmes throughout its four days in the summer from music through theatre to contemporary art. The 4-day long festival is located in the countryside and hosts 8000 visitors each year. It offers concerts, theater performances, exhibitions, civil initiatives, workshops, and round-table discussions about social justice issues, human rights, and the experiences and cultures of minorities. Next year, Bánkitó will take place for the 10th time in Bánk, a small Hungarian village 60kms away from Budapest. The programme of the festival is always organized around a common theme. In 2020, the topic will be Hungarotherapy. Our aim is to get together as a community, listen to sweet tunes, watch inspiring theatre, see exciting movies and alongside all of that, really knuckle down on what it means to be part of our nation - or of any nation, community or group of people, where you alone are not entirely in control of the narrative being told about the collective you're grouped with. The collective that, perhaps, if it were more on your terms - you'd be happy to identify with! We want to examine how we can sort through and reclaim the history, the stereotypes, and the symbols that have often been used as political tools for aims we might not be as close to. Which isn't as simple as examining our old red-white and greens. We want to bring back the stories that shaped us, and we want to be able to share them as our own.

Work:

We are looking for volunteers to help run the festival through a wide range of tasks relating the implementation of the festival:

06/07/18 – 08/07/18 – preparational works

08/07/18 - 11/07/18 – festival running related tasks (on optional field) - administration, cooking, clean-up, programme coordination, technical implementation, programme

documentation (taking photo, videos, uploading them on our social media platforms and website), communication (text writing in english), running info-points

11/07/20 -13/07/20 - afterworks.

Every volunteer is working 6 hours/day at the festival, the time remaining is free for visiting programmes, etc.

Accomodation and food:

Volunteers live in tents during the festival, volunteers are asked to bring their own tent. We provide 3 meals/day for our volunteers (breakfast, dinner, lunch - hot meal). We provide all equipment needed to fulfill your tasks, with few exceptions (e.g. if you would like to work as a photographer volunteer, you should bring your own devices).

Meals: Vegetarian option is available/every meal.

Location and leisure:

All this around the picturesque Lake Bánk, a one-hour car ride or half-day bike trip away from Budapest. Bánk is a tiny village in Nógrád County with its not-so-tiny Lake Bánk in the middle. It has everything a tiny village built around a lake could need: a small store, a tobacco shop, a pizza place, a pub, some hotels, motels and a lakeshore eatery. Plus the extremely friendly locals. Bánkitó Festival has been in town for 12 years, mostly around the

Lakeshore and the Camp, though throughout the years, we ventured out to settle around the Reeds and the Meadow. Besides the lake, the small wooden cabins and the venues hiding around small clearings throughout the enclosing forest make Bánkitó the festival it is. In the neighbourhood there are many options for small excursions or to visit Budapest before or after the festival.

Requirements:

Please send us a motivation letter focusing on why you would choose to work on the festival, and in which position of the listed above, what kind of related skills or previous experiences you have had at the chosen field. You do not need any special skills to volunteer at the festival. Please include in your motivation letter what fields you would like to work on during the festival, but you should know, that your final position will be decided by our volunteer coordinator. We place huge emphasis on finding every volunteer the personally most fulfilling task :) We will provide a practical info sheet for our international volunteers containing all transport & venue information, etc.

Let's get closer! – I. Bercel International Craft Camp

Let's get closer to each other and ourselves through handcraft activities with natural materials. For the first time this year we are organizing the first volunteer camp in Bercel, where we offer the opportunity to 3 major disadvantaged target groups of local people - children, the elderly and people with disabilities from the Rehabilitation Institute - to get closer to one another. We want to create the space to break down the walls between these mostly isolated social classes in our village. It is very important for all that there is a potential of therapeutic development in the craft during the camp (felted, basket weaving, candle making, claying, etc.) it is easy to get success, produce a product, become a useful and active member of society, the local community, thereby improving their quality of life and health.

20/07/2020 - 02/08/2020

**Location: Bercel, Hungary
code: EGY-20-05**

Min age: 18

Max. age: -

Number of volunteers: 6

Language: English

Partner:

Our organization has been active in Bercel since 2016, in this disadvantaged region, but rich in natural resources, as a representative of the eco-conscious generation starting new life in the countryside. Our goal is to create a clean, livable and vibrant countryside through our presence and programs. Our activities so far have focused on environmental rehabilitation, community development and ecological cultivation of small gardens along an environmentally conscious approach. At the

same time, it is also extremely important for us to protect the community –forming and cultural heritage: the preservation and transmission of livable human and cultural values. To this end, we have taken part in organizing and carrying out recreational, artistic, nature and environmental events, programs, lectures and exhibitions in the local context. On these occasions, we provided opportunities for local people in the countryside and the proximity to nature to find each other through community cultural traditions, manufactures, crafting, and gastronomy activities. Artisanal and traditional processing of locally grown raw materials. Our programs are implemented in the spirit of environmental awareness, sustainable eco-conscious values and tradition preservation. Through our projects and programs, we can show you how to leave the smallest possible ecological footprint of volunteer simplicity to leave the next generation a more sustainable environment.

Work:

The need of this workcamp is to offer a good program in summer for the disadvantaged local people like the children, elderly and people with disabilities from the Rehabilitation Institute, and we need volunteers to create the conditions (e.g. preparing food, cleaning, transporting, frame work) and coordinate the craft programs, help our team, work with children and with the other participants during the creative activities.

**Accommodation and food:**

Volunteers will be accommodated in a shared apartment in the village, it is in progress to find the suitable house. Food provided three times a day, at least one hot meal. **Meals:** vegetarian and vegan.

Location and leisure:

We are living in a village with 2000 inhabitants, it's a dynamically evolving settlement: kinder garden, elementary school, good healthcare, pharmacy, bakery, little shops. The program will take place in the local community center (House of culture), in case of good weather in the yard under a tilt. There are many hiking opportunities nearby (Szanda –castle, Andesit columns, Csobánkapuszta where is a hippy community, cycling, horse riding, playing ping-pong etc.). There is nearby a

The volunteers can join to the families of the local small-community: playing with children, celebrate together, make some music, singing together, have fun next to the bonfire, or do works around the house.

Experience regarding the work with children, elderly and people with mental disabilities, experience in some handicraft activities, like felting, claying etc., at least good English or little Hungarian is a requirement for this camp. More info here: <http://jotermeszettjaro.hu/>

Work:

The organization is active in two very important hiking and touristic areas in Hungary called Bükk and Mátra which both have more than 1000 km hiking trail. The trails and signs need to be renewed in every 5 years - *which means about 200 km per year* - but there is not enough capacity for this work from local volunteers. The organization would host international volunteers in 2020 for the first time, led by

professionals. The voluntary work includes trail sign re-painting, cleaning the hiking paths and renewing the resting areas, e.g. benches, informational boards etc. Activity time takes about 8 hours per day including travel time. Accommodation will be organized in a dormitory or similar local accommodation with 2-3 beds per room. Common kitchen will be available with fridge, microwave, stove. The type of meal provided will depend on the type of daily work, e.g. packing lunch for working outdoors, or at the accommodation cooked together by the volunteers.

Meals: Vegetarian

Location and leisure:

organizations. The closest city is Eger, a rich historical and cultural center, with a beautiful old center and a rich historical heritage, capital of a famous wine region in Hungary.

International volunteers will have a chance to participate in various cultural programs and other free time activities both in Füzesabony and the region.

**Requirements:**

Volunteers will work outdoors in the forest located between 500-1000 meter high, in protected areas. **Volunteers should be prepared for outdoor activities, physical work, and need to be ready to work in different kinds of weather conditions, such as rain** (which is not typical in this season, but might happen). This camp is suitable for those volunteers who love hiking, are not afraid of physical work and would like getting to know the wildlife of the Carpathian Basin.

For this camp volunteers need comfortable hiking shoes, comfortable and suitable clothing for hiking and a good rain jacket.

Motivation letter is required for the application.

Everything green! We like to protect our environment even during a festival, and your job will help to remind visitors of it as well. InDaHouse Hungary works in one of the poorest and most disadvantaged regions in Hungary, Borsod-Abaúj-Zemplén County. Our volunteers hold individual and group sessions for underprivileged children to help them with their studies and develop their abilities. Our goal is that the kids who take part in our programme become independent, liable adults who are able to control their own life. We have an Early Childhood Development Program for kids under 6, and we study individually with the older ones (from 6 to 18) to practice comprehension, mathematics and English. We also try to broaden their horizons with different activities e.g. hiking, dance lessons, video making courses, etc. In the near future we would like to open a charity shop and a café in the village. We have two old buildings for these purposes that need renovation. Working with volunteers from bigger cities and from abroad also help the local community to connect with different social groups and to be more open. <https://indahousehungary.hu/>

Work:

The children we work with study English in school but they don't use it in real life. They hardly ever meet people from abroad, they don't watch films or read books in English.

From September we would like to have 2 long term volunteers

who will regularly teach them English and this camp will serve as a "warm up" for this project where they can experience how to communicate in English, learn and practice some basics of the language. The programme of the camp will also contain a lot of group and team building activities and games. The camp itself

will take for 5 days, the kids will be there from 9 am to 5 pm every day. We expect about 50 children, with age between 7 and 16. They will be in groups of 10, each group lead by 2 volunteers. The

volunteers will have to take part of the preparations before the camp and the execution of the programmes. Our national InDaHouse volunteers are responsible for planning the programmes in advance and supplying all the necessary materials and equipment, but if you have some ideas or good practice feel free to share them with us!

Accommodation and food:

IDH Hungary has a Children and Volunteer Center which was built by Volunteers from donations of individuals and companies. The accommodation will be there in big rooms with 6-8 beds. You will need to bring your own sleeping bag and towels.

The breakfast and dinner will be served in the Center. There is a bio garden in the village (BioSzentandrás) which will provide the lunch for the volunteers using their own bio products.

Meals: Vegetarian, gluten and lactose free food will be available.

Location and leisure:

Hernádszentandrás is located in a beautiful surrounding in the North East of Hungary, close to the Slovakian border. The nearest big Town is Miskolc, 40 kilometres away. The village has about 400 inhabitants. There is a small shop and

a pub in Hernádszentandrás and there is a restaurant in the next village, Pere. On your free days you can visit Miskolc or Kosice, or the most famous Hungarian wine region, Tokaj. If you like nature you can hike up to the ruins of Regéc castle, Boldogkővárlja castle or to Zemplén-mountains which has one of the wildest forests in Hungary, with many natural sights.

Requirements: Extra fee: 20 EUR

Nearest airport: Budapest Airport (BUD) – *Liszt Ferenc International Airport*

Trains and buses: Trains depart once in every hour from Budapest Keleti station to Miskolc. From Miskolc there will be an organized pick-up to the location of the camp. You can check the timetable here: <https://www.mavcsoport.hu/en>

Our garden has been the site of numerous practical training courses, customer and student group visits, research studies and international projects. Egyesek Youth Associaton:

Egyesek Youth Association is a community of active youth and young professionals. We contribute to creating communities based on solidarity, where people are aware of their own freedom of choice, they do what they love and connect with each other peacefully. We work together with youth from all walks of life with a special focus on youth at risk. Most of our activities are based in Nógrád-county,

a socially and economically disadvantaged part of Hungary, where young people have very few opportunities to meet their peers from other European countries, to engage in multicultural, non-formal learning, or to take part in creative activities during their free time. Working closely with local stakeholders (schools, youth clubs, youth workers, experts) we aim to fill this gap by creating meaningful educational and self-development opportunities locally while involving international youngsters in these programs. <https://egysek.hu/>

Work:

Egyesek has organized short-term voluntary projects in cooperation with the local youth clubs of a micro-region in Nógrád county 4 times already. In this ESC summer camp a team of 11 international volunteers will live and work together for 15 days, to lead non-formal education sessions in English for the local youth and children. In the first week of the camp they will volunteer at a local summercamp, involving about 70 kids from the region. They will

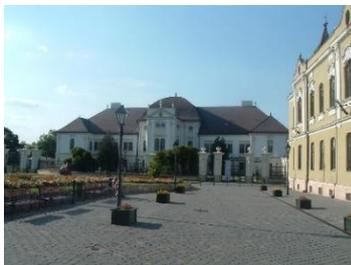

have the chance to organise free time activities for the kids and also help the organizers in various tasks (e.g. kitchen, cleaning, etc.)

The volunteers will be coordinated by two team-leaders, and professionally guided by the local youth-workers. In the second week of the camp they will visit every day the local after-school clubs and organise activities for the kids, creative workshops, outdoor activities, games etc.

Accommodation and food:

On the first week of the camp volunteers will stay in an equipped campsite (called Robinson Islands <https://www.robinsonszigetek.hu/>) in tents, with limited conditions (water and electricity is limited). Food will be ordered from a local kitchen

and volunteers will eat together with the children. During the second week of the activity volunteers will be accommodated in a dormitory in Szécsény town. **Meals:** Vegetarian and vegan food will be available.

Location and leisure:

The camp is located in Nógrád county on the north of Hungary. This region is one of the poorest in Hungary but has many cultural villages, the most famous is Hollókő

which is listed as a UNESCO World Heritage. It has a cultural center and ruins of a castle with a beautiful view. The nearby hills provide many opportunities for small excursions in beautiful surroundings with lakes and forests. Budapest the capital of Hungary is about 100 km away from the region.

Requirements: Volunteers should be ready to spend their time together with children, especially during the first week of the camp, when they will be accommodated at the same camp site.
