### *Inclusive Fees Policies*

One of GREAT's dreams is to provide opportunities to all youth without exceptions and discrimination to access global education and experience of long-life learning through international voluntary service. Also, somehow, following the current situation in our organization of the increased the living cost in general including material costs as well as the increased networking costs of all regional and global networks, we will apply GREAT participation fee policies 2020 as follow:

1. Each volunteer of workcamp and of LMTV will pay a certain amount of participation fee.
2. There are seven (7) categories of participation fees for volunteers joining GREAT workcamp:
  - a. National volunteers – Indonesian ID holders;
  - b. International volunteers sent by Sending Organisations (SO) within the networks CCIVS, SCI, NVDA and Alliance from countries with GDP per capita 10.000 USD or more;
  - c. International volunteers sent by (SO) within the networks CCIVS, SCI, NVDA and Alliance from countries with GDP per capita less than 10.000 USD;
  - d. International volunteers sent by (SO) non-networks CCIVS, SCI, NVDA and Alliance;
  - e. International volunteers who are permanent residents in Indonesia – KITAS holders;
  - f. International volunteers who are currently joining LMTV projects with GREAT;
  - g. International volunteers without SO.
3. There are three (3) categories of participation fees for volunteers joining GREAT LMTV projects:
  - a. International volunteers sent by Sending Organisations (SO) within the networks CCIVS, SCI, NVDA and Alliance from countries with GDP per capita 10.000 USD or more;
  - b. International volunteers sent by (SO) within the networks CCIVS, SCI, NVDA and Alliance from countries with GDP per capita less than 10.000 USD;
  - c. International volunteers sent by (SO) non-networks CCIVS, SCI, NVDA and Alliance.
  - d. Participation fees indicated in the program book is valid for category 2b, 2c and 3a, 3b.

**PROJECT:** In cooperation with [Difable Activist, Ms. Titiklsnani from Boyolali](#) near Solo, Central Java, the project will create space of interaction & integration inclusively between difable children and their parents with other children and people. It is in term of daily life, basic education in [Inclusive Pre school "Tersenyum"](#) that founded by Ms. Titiklsnani, her family and her difable friends, as well as other social activities such as music, art, and social interaction with local neighborhood.

**BACKGROUND:** This is the first IVS project for [PAUD InklusiTersenyum \(Inclusive Pre School "Tersenyum"\)](#) that provides space of interaction, education and social integration for children with disabilities (difabilities) and non difable in Boyolali near Solo, the city of culture in Central Java. With the same spirit between GREAT and [the difable community founded by Ms. Titiklsnani](#), anyone can be the agent of change toward world peace in any aspect of humanity, GREAT local volunteers has been making school visits monthly and did one mini workcamp in 2018 to get to know and experience deeper the people and the issue try to be promoted by the local community.

The inclusivity for difable people and their families is still unpopular for many Indonesians especially in village area. Boyolali, even thou it is located next to Solo, an international cultural city, still has to raise awareness strongly in the local level on the difable rights of education, social interaction and integration. Stigma on the difable people to be non educated and useless need to be changed in the mind of people. Families who have difable children need to be encouraged to be strong and to keep their children at school. IVS, particularly international workcamp will bring international volunteers and national ones into the school and neighborhood with more interaction and isocialintergration activities that is expected to bring more diversity and solidarity to the humanity for these difables.

**AIMS:** To fights against the negative stigma toward difable people through social interaction and integration with activists and students of [PAUD InklusiTersenyum \(Inclusive Pre School "Tersenyum"\)](#) along with local people in the neighborhood.

### WORK:

- Volunteers will live in with local communities
- Support Pre School with creating inclusive non formal educative activities
- Join social activities and traditions in local level

**ACCOMODATION & MEAL ARRANGEMENT:** In local people's house. Meals are mostly cook by the volunteers group themselves in turn. There will be daily life teams: cooking team, cleaning team, washing dishes team.

**STUDY THEME:** Local life. Difable issues in local context.

### REQUIREMENT:

- Strong motivation and interest in non formal learning.
- Interested in difable rights issue.
- Preference: experience in volenteering / working with difables.

PROJECT: Supporting local organization in [river conservation](#).

BACKGROUND: [Citarum](#) is the longest river in West Java runs over 300 kilometers from the Wayang Mountain to the Java Sea. There are 30 million people rely on the water source for agriculture, water supply, fishery, industry, sewerage, electricity, etc. However, unregulated factory growth since the area's rapid industrialization in the 1980s has choked the Citarum with both human and industrial waste. The 5 million people who lived in the river basin are directly affected. Over 200 textile factories line the river banks and contaminate the river with lead, mercury, arsenic and other toxins, changing its color and lending the area an acrid odor. Moreover, the river is also polluted and filled with trash such plastic, styrofoam, even dead animals.

In cooperation with [BeningSaguling foundation](#) working in Citarum river basin and Saguling basin since 2015, GREAT started the IVS intervention since 2017. We work together in the community development program through education, social, economic, and environment conservation. By using the trash as their potential product for making "[TRASH BANK](#)", they also take advantage from the water hyacinth weed (pollutant plant) by making handicraft from that plant. Now, the community has their own forest in the river basin where they conserve some variant of bamboo trees and other local trees. Their home based has become a learning center for garbage management and water handicraft.

AIMS:

1. To support the foundation program in environment conservation, through social action and education
2. To promote the foundation as a learning center for environment conservation
3. To spread out the idea of voluntary service and international work camp among the local people
4. To raise awareness about the garbage problem in Citarum river
5. To organize environment education for children in Citarum Basin Area

WORK: There are two activities; Physical Work (Picking up garbage from Citarum river and Saguling basin, doing garbage management, planting trees, making organic fertilizer, gardening, and making handy craft) and Non-physical Work (Conducting language class, mentoring green school project, taking part in culture class, doing school visits, organizing an environment educational workshop or socialization, creating art activities and promoting mini library)
