## About us:

Lunaria is a *nonprofit association for social promotion*, secular, independent and autonomous from political parties, established in 1992.

It promotes peace, social and economic justice, equality and guarantee the rights of citizenship, democracy and grassroots participation, social inclusion and intercultural dialogue.

Lunaria practices and promotes processes of social change locally, nationally and internationally through advocacy, political and cultural animation, communication, non-formal education, training and research, information and awareness campaigns and the networking.

Mobility and international volunteering, youth policy, migration and the fight against racism, public policy analysis budgetary, economic and social sustainable development, fight against inequality, are at the center of its social commitment.

Every year, Lunaria involves around 1000 young volunteers in its programmes, including workcamps, youth exchanges, medium and long term volunteering. This is possible thanks to the collaboration with the organizations of the Alliance of the European Voluntary Service Organizations and to the Italian network coordinated by Lunaria, where local groups, associations, cooperatives and municipalities can plan an implement international voluntary services projects.

“We ask to the international volunteers to commit themselves in the mission of the hosting projects, having an **open mind**, and arriving aware that the accommodation conditions may not be suitable for those looking for cheap and comfortable holidays. Every project is made by many factors, and we need from the volunteers a problem-solving approach.”

The workcamp is coordinated by an experienced volunteer, who is not the boss of the camp: we ask the camp-coordinators to ease the first days of the camp and to involve the volunteers in a being responsible of the project, using consensus methodology. The camp-coordinator is not at all responsible for volunteers' fun and the best camp has a camp-coordinator who slightly go back to the status of normal volunteer.....So, prepare to take responsibilities!

**Age limits:** For adult camps see details in the program tables and for the TEEN camp: 16-17.

**Common language used in the camps:** English

**Fees:** Some exceptions are meant to support the costs of the project (15-25 €).

TEEN workcamps have participation fee to cover the cost of the professional leaders and part of the project costs. No administrative costs are covered by the participation fee.

Inscription fee for Italian volunteers is 105€.

**Insurance:** Lunaria provides insurance to all the volunteers (SCI scheme)

**SUMMARY:** Join Agape, a place where you can share an intense community spirit in beautiful natural surroundings. Support local volunteers in managing the Centre with very different tasks. Don't miss this enriching human opportunity.

**#interculturalism # sharing #communityLife #mountains #lunarcamp #100YearsOfWorkcamps**

**PARTNER:** It's been ten years that Lunaria and Agape are working side by side to create a space where people can meet in harmony. Agape International Ecumenical Centre is an important point of reference in Italian Protestantism, being for 70 years a place of education and development, theological exploration, political engagement, acceptance and validation of differences. A resident group still lives at Agape throughout the year. Agape was built after the Second World War as a sign of hope and reconciliation between people, thanks to the voluntary work of many young men and women. The dimensions of community and voluntary service remain fundamental. Please visit [www.agapecentroecumenico.org](http://www.agapecentroecumenico.org) to see which are the activity programs for this period.

By joining this workcamp you will contribute to the Sustainable Development Goals: **Quality Education-SDG4 and Gender Equality-SDG5**, two of the pillars of Agape mission.

**PROJECT:** Every year many people, with different ages and religious, cultural and political backgrounds, come to Agape to discuss and to be challenged, to get to know themselves and each other and to exchange experiences around a particular theme. The work camp will support the management and support the meetings on issues of political, social, cultural and religious interest. The center is volunteers-driven, and its management is in your hands.

**WORK:** Volunteers will help in the following tasks: kitchen, meal service (tables and dishes), cleaning, maintenance, bartending, babysitting.

**ACCOMMODATION AND FOOD:** Volunteers will be host in 3-4 bed bedrooms with shared toilets on the floor. The meals are typical Italian Mediterranean cuisine, with limited consumption of meat

for environmental reasons, and the possibility of choices for those who require a special diet. There is a washing machine available for the volunteers.

**LOCATION AND LEISURE:** Agape is in the Alps, close to Prali commune. Games, discussions, and outings can be organized during free time. Programmed activities (especially in the evening) are most of the time open to the volunteers, as long as they do not clash with work commitments. The place is beautiful but isolated, though you will stay together with many international participants attending the meetings of Agape. **TERMINAL:** Turin

**REQUIREMENTS:** Volunteers should come ready to accomplish each task and with an open mind. Volunteers before arrival should contact the Agape secretariat before arriving since travel to Agape can be complicated.

**SUMMARY:** You are passionate by the classical theater and by the history? Join the International Festival of Classical Theater of Palazzolo Acreide and make alive again the Greek theater of Akrai the most distinguished monument in the archaeological site!

**#History#Festival#Classical theater# Archeology #lunarcamp #100YearsOfWorkcamps**

**PARTNER:** The festival is organized by the National Institute of Ancient Drama (known by the acronym INDA) and the workcamp is managed by a local organization called "Fare Palazzolo".

**PROJECT:** The International Youth Festival of Classical Theater is the most important theater event dedicated to future generations on the national and international scene. Since 1991 the performances take place in the Greek Theater of Akrai in Palazzolo, where boys and girls of all ages present very original interpretations of classical Greek and Latin texts, during an event whose strengths are participation and being together. The purpose is to support the management of the festival and the 80 schools that will participate in the festival. The volunteers of the workcamps will take care of the reception of the young actors who will play in those days. The aim is to coordinate the whole event only with a young and motivated group of people, who will have during the experience the opportunity to match with more than 1600 actors/young people from all over the world. The festival will be run from May 16 to June 7 and two turns of workcamp will be organized.

**WORK:** Volunteers will support the organization of the "International Festival of Classical Theater for Young People ". They will be active about 5/6 hours a day with different tasks and they will be organized daily in two rotating groups. A group will take care of the activities at the Greek Theater (reception, the work of masks in the theater and order service) while another group will take care of the activity at the Youth Hostel for the lunch organization and for the afternoon cultural activities dedicated to the actors.

**ACCOMMODATION AND FOOD:** Volunteers will go to live in a hostel with comfortable rooms. There will be a kitchen where they can cook independently. There is no canteen service but the volunteers will have to cook on their own or choose to have lunch (lunch only) with the actors who will be guests of the hostel during the camps. The food for the kitchen will be provided by us and if there are special requests we will try to satisfy them. The hostel has been recently renovated and has bathrooms and showers. We will supply sheets and blankets or other things if necessary.

**LOCATION AND LEISURE:** Palazzolo, UNESCO heritage site, is a quiet town of 9000 inhabitants and is located 30km from the most beautiful beaches in Sicily!

In the evening, you will have fun in the pubs and in the most visited places in the town, which is full of architectural and naturalistic beauties. There will be games and entertainment to spend the evenings with the local group ..we will not get bored! **TERMINAL:** Catania Airport, Palazzolo Acreide bus Station

**Requirements:** Could be possible for volunteers to take part in both workcamps turns

**PARTNER:** Lunaria and Cilento Youth Union have organized several successful workcamps in the last years. Cilento Youth Union is a youth NGO started in Rofrano (SA) in 2015, targeting Italian youth with fewer opportunities from the south of Italy and specifically from the Cilento area. This workcamp is co-organized by Gazania Association, that proposes the study of the Byzantine history of Cilento and Vallo di Diano, the research and enhancement of cultural emergencies and ancient paths that can be traced back to the settlements of Italic monks. By joining this workcamp you will contribute to the Sustainable Development Goals: **SustainableCommunities -SDG11.**

**PROJECT:** FOLLOW THE MONK! To the heart of the Cilento, Vallo of Diano and Alburni National Park is a workcamp about Bizantine heritage of Cilento and Vallo of Diano, sub-regions in Salerno province, researching and valorising cultural heritage and ancient paths linked to the settlements of Italian-Greek monks. Since 2018 the local promoters work on the realization of the “Cammino di San Nilo”. This is a route of 103 km, divided into 7 stages, crossing 10 small rural villages included in Cilento, Vallo of Diano and Alburni National Park. The aim of the project is to clean and improve the footpaths that integrate the "Cammino di San Nilo". In particular, volunteers will be asked to increase the signage along the entire route and in both directions. The volunteers will walk each stage of the “Cammino” together with a guide and will be transferred by bus from the San Mauro La Bruca headquarters to the starting point of the stage and vice versa for the return to the guest house.

**WORK:** The volunteers will be involved in different activities. Manual work: mow grass, repair and secure the fence, wood and stone steps, rid the path of trees and greenery obstructing the walk, fix dry small stone walls and pave paths with local natural stones, integrating signposting; Garbage collection work along the paths of “Cammino di San Nilo”; Forest work like clean undergrowth and forest floor, prune branches and plants.

**ACCOMMODATION AND FOOD:** All volunteers will be accommodated at the guest house at San Mauro La Bruca, located in the centre of the town and equipped with mattresses, toilet and kitchen, where they will prepare meals, arranged according to Mediterranean cuisine. For this reason, volunteers will be assisted by a typical Cilento inhabitant. It’s recommended to bring: sunscreen, work clothes (included gloves, shoes), swimsuit but also warm clothes and K-way, sleeping bug, video-camera

**LOCATION AND LEISURE TIME:** San Mauro La Bruca is a town and commune in the province of Salerno, in Campania, region of south-western Italy. It’s located in the middle of Cilento, the sub-region which is home of the Mediterranean Diet and rich in biodiversity. It’s integrated by the hamlet of San Nazario, where the ancient abbey that housed San Nilo was located. It’s situated in the hills, but not far from the Cilento coast... so don’t forget to bring your swimming suit! With less than 600 inhabitants and its breath-taking panoramas, it is a very exotic and unusual place to visit. The area is rural and inner, far from urban centres, but people are very hospitable and always ready for conversation... in a very nice dialect! **TERMINAL:** Rome and Naples

**SPECIFICS REQUIREMENT:** open-minded, attitude to outdoor manual activities, positive artistic attitude, flexible to eat local food, ready to interact with other people of different cultural background, willing to share own experiences, flexible to live in simple living conditions.

**LUNAR08/ESC “A COMMUNITY PARK FOR ATINA” /// Atina /// 15/06/20-30/06/20 /// CONS/ENVI /// VOLS: 14 /// AGE: 18-30**

**SUMMARY:** Within an international group, support the renovation of a historical park.

**#CommunitySpirit #interculturalism #solidarity #lunarcamp #100YearsOfWorkcamp**

**PARTNER:** For 5 years, the association "Rise Hub" is working actively on the development of the Valle di Comino, also through the organisation of workcamps. The association "Rise Hub" was established in 2015 in Valle di Comino, a rural area composed of many small towns surrounded by mountains between the cities of Rome (120km) and Naples (180km) with an increasingly intercultural composition of the population. The association aims to create a connection between unemployed youngsters, migrants, refugees, and asylum seekers living on the

territory, with local institutions and private firms. Its members are mainly women, girls, and refugees, and it counts with several volunteers of different ages and backgrounds.

By joining this workcamp you will contribute to the Sustainable Development Goals: **SustainableCommunities-SDG11.**

**PROJECT:** The idea of this workcamp arises from the will to bring international volunteer project closer to local young people, and to support the local community of Atina in improving the conditions of the environment of San Stefano Hill, for a long time almost abandoned but with a deeply artistic, historical and natural potential. The aim is to create a new meeting attraction amid nature and revitalize the town's hill so that inhabitants can enjoy a cleaner, renovated park, and have a common meeting place.

**WORK:** The park area where volunteers will work is in a state of neglect even though is the place where local youth uses to hang out the most. The first days of the workcamp will be dedicated to know the community of Atina and to prepare the area to be renovated. The volunteers will initially clean the area and repair some missing parts of stone benches in the park with different materials. The participants will cooperate to create together (natural installations, outdoor toys, pieces of furniture, information panels, etc.). When the work is completed, the project area will be cleaned. The volunteers will work 5 hours a day and they will have 2 days free.

**ACCOMMODATION AND FOOD:** The volunteers will be accommodated inside the park, in camping with services like kitchen, bathroom, showers, and a covered area with tents and mattresses. The camp is equipped with a wifi area, and it is in the center of Atina, so bars, banks, minimarkets, post offices are all nearby. Food will be vegetarian and most of the groceries will be purchased from local producers and farmers. Volunteers will be also invited to join for typical local organizations and associations of citizens. On the first day of the workcamp, the "camp rules" will be shared with the group and expected to be followed throughout the whole duration.

**LOCATION and LEISURE TIME:** Atina is a small, rural Municipality of approximately 420 inhabitants, in southern Lazio (same region as the capital, Rome). Atina is said to have mythological connections with the Roman god of Saturn. Saturn is also said to have taught these native people how to build houses, to cultivate the land and plant vines and to live together harmoniously. Thus he became known as the Roman God of agriculture and fertility. The main attraction of the town is the historical center and the archaeological site. Hundreds of tourists visit the town not only for his history and monuments but also for the genuine tasty food and the untouched natural beauties that the town offers. Meeting points will be arranged according to your time of arrival at Rome Airport, and therefore the time you will take the train to Cassino train station. **TERMINAL:** Rome

**REQUIREMENTS:** This project is supported by the European Solidarity Corps. Food and accommodation are covered by the European Union. Transportation costs will be refunded according to the distance band rules of the program. No fees are required. The workcamp is open for 8 international volunteers (coming from EU Member States, North Macedonia, and Turkey, Liechtenstein, Iceland and Norway, Albania, Bosnia and Herzegovina, Kosovo, Montenegro, Serbia, Armenia, Azerbaijan, Belarus, Georgia, Moldova, Ukraine, Algeria, Egypt, Israel, Jordan, Lebanon, Libya, Morocco, Palestine, Syria, Tunisia, and the Russian Federation), 4 Italian volunteers and 2 volunteers outside the ESC countries project.

**LUNAR10/ESC “INCLUSIVE CAMP” /// Monterotondo /// DISA/SOCI/RENO /// 20/06/2020-05/07/2020 /// VOLS: 12 /// AGE: 18-30**

**SUMMARY:** Support “Il Pungiglione” in their invaluable work with young with disabilities! Be part of the movement to shift the concept of assistance through responsabilization and the recognition of the individual's abilities.

**#equality #renovation #workingtogether #100YearsOfWorkcamps #lunarcamp**

**PARTNER:** “Il Pungiglione” is a co-operative that contributes to the development of the local community through the implementation of “Welfare Services” and “production-work” activities, alongside the municipal and partner organizations.

For years it's been engaged in the crucial work of implementing social policies aimed at improving the quality of life, and in the management of social services and intervention.

By joining this workcamp you will contribute to the Sustainable Development Goals:

**ReducedInequalities-SDG10 and SustainableCommunities-SDG11.**

**PROJECT:** The project will take place in “Il Funambolo”, a service center for people with disabilities in Monterotondo, a town in the province of Rome. The idea for the workcamp stems from the need to rethink, remodel and recreate indoor and outdoor spaces of the center, based on the needs of the individuals who experience them daily. This is both a way to refurbish the center and to offer our guests opportunities for personal growth. The social aspect of the project focuses on the local community and the daily activities of the center's attendants, in which the volunteers will take part. It is important to keep the personal and common areas clean, to respect the guests' personal spaces and to observe silence in the guests' hours of rest.

**WORK:** The work of volunteers will consist of the renovation of the center's spaces, in all its phases: planning, the finding of the materials, etc. In the actual realization phase, the volunteers will be assisted by professional technicians from the staff. Part of the efforts will be focused on the “Spazio Aperto”, the largest hall in the center where many workshops and activities take place. Specific work will include the realization of a coat hanger and a polyfunctional wall with recyclable materials.

Volunteers will support the daily activities of the center's guests, accompany them in summer outings in the territory, as well as organize thematic evenings with other local realities. These activities will culminate in a great open-air party with the whole local community to promote active citizenship. Workdays will be 6 hours long, with 2 days a week for rest.

**ACCOMMODATION AND FOOD:** Accommodation will be in “Il Funambolo”, where volunteers will be arranged with their sleeping bags. Breakfast and lunch will be served in the dining hall, while dinners will be prepared together with the volunteers, to promote the collaboration among the group and the Cooperative staff. Vegetarian and vegan products are available.

**LOCATION AND LEISURE TIME:** In Monterotondo there are cinemas, libraries, museums, and pubs for young people and cultural Associations with special regard for local and traditional issues and with special attention to maintain and create a deep net of relationships in the community, making the area very attractive. The cooperative has promoted this net to support citizenry aggregation processes, to promote the organization of local activities managed by the Work Camp. **TERMINAL:** Fiumicino airport, **NEAREST TRAIN STATION:** Monterotondo. Fiumicino Airport is directly connected by train to the location (1 hour and 15 minutes).

**REQUIREMENTS:** Volunteers should be open-minded, responsible and supportive, especially considering they will be working closely with a disadvantaged community, that might require special care. Volunteers should bring their sleeping bags, inflatable mattress, and work shoes. This project is supported by the European Solidarity Corps. Food and accommodation are covered by the European Union. Transportation costs will be refunded according to the distance band rules of the program. No fees are required. **SUMMARY:** Join us in the wood, to renovate and improve natural areas, challenge yourself in nature, bring life to an abandoned wood and make it accessible for the local community. Enjoy this beautiful place practicing outdoor activities! **#Citizenship #YoungPeople #Games #EnvironmentLaboratories #Lunarcamp ##100YearsOfWorkCamps**

**PARTNER:** The workcamp is organized by Liberi Sogni a small no-profit organization that organizes, since 2006, social, cultural and environmental projects in the districts of Lecco, Bergamo and Monza e Brianza, in the region Lombardy. Liberi Sogni always considered the intercultural topic very important. Many people that work in the cooperative experimented directly with how important is to promote solidarity and attention towards cultures, especially among young people. By joining this workcamp you will contribute to the Sustainable Development Goals: **LifeOnLand-SDG15** and **ClimateAction-SDG13**.

**PROJECT:** The cooperative is involved in promoting environmental protection, presenting alternative and sustainable ways of life through workshops in the schools, green days, weekends into nature and “Environmental Creative Camps” to preserve old woods and increase the value of our territory. Since 2014 Liberi Sogni is involved in a project called “Crazy-lienza, tornare alla natura per coltivare il futuro”, in English “Crazy-resilience, to go back to the nature to grow the future”. From this year a new environmental project has begun the “free university of the forest”, to be developed during the workcamp. Liberi Sogni organizes the camp “International Green Camp” to involve young people in the transformation of an abandoned wood in a place useful and pleasant for the local community and small local farms. The main aims of the project are environmental education and awareness through the active engagement of young people in an international and natural environment. Through the experience in the wood, we would like to achieve personal development, increase active citizenship in society, improving language competences, raise participants' awareness and understanding of other cultures and countries.

**WORK:** There will be two different work experiences: in the first, for four days, the children will live an experience of sharing with children and adults and the volunteers will have to take care of the arrangement of the camp and help the team in the kitchen and the activities; in the second, for seven days they will live an experience with young people with work to protect the forest and the environment.

The work will be mainly in the morning, about 4 hours per day with three types of activities:

- 1-Arrangement of the camp, taking care of the little vegetable garden and the water tank.
- 2- Work in the wood: building tables with wood materials (the tables will be used to create in the wood a relax-area for the local people) and fixing or building footpaths.
- 3- Cooking to prepare lunch with organic food coming from the nearby area

#### 4- Support for the creation of artistic and environmental laboratories

In the afternoon the participants will take part in special workshops in local small farms, workshops with local associations for taking care of the paths and small rivers.

**ACCOMMODATION AND FOOD:** Accommodation and Food: The participants will sleep in tents of 4 people. The tents will be provided, but the volunteers will have to bring their camping mattress and sleeping bag. The tents will be divided into girls and boys tents. Participants must carry their belongings in a backpack, as they will arrive at camp on foot. Electricity and hot water will be provided by photovoltaic and solar panels. The toilet is 2 compost toilets, made of wood. The food will be prepared by the volunteers, who will eat together in a big tent. Most of the food will come from local farms from the fair trade. Drinking water will be taken from the local fountain. The food will be prepared by the participants, who will eat together in a big tent. In the past, this area was used for agriculture, but now most of it is abandoned: we can see abandoned buildings, woods, and fields. Invasive plants are growing avoiding the growth of the local ones.

To reach the CRAZY-WOOD there's a gravel road or a footpath. (See the place in this map <https://goo.gl/maps/YxwVEVgUnPE2>) The closest village is Aizurro, a very little village with around 180 inhabitants. The closer place with facilities like shops, train station or other services is the village of Airuno. During the day there is some time for games and activities (for example tree-climbing, excursions, land art). Some evenings will be organized with "cultural nights", where one or more countries organize a dinner with the typical food and games and /or workshops to show their own culture. The rest of the evenings there will be moments at the fireplace, free evenings or some games in the darkness. **TERMINAL:** Milan

**#festival #TeamSpirit #sustainability #lunarcamp #100YearsOfWorkcamps**

**PARTNER:** Tularù is a cultural and agricultural project which rose to a start-up after a few years. As a center of sustainable production, their main goal is to use the cultural value of the traditional production techniques in order to create participation. According to them, the bread produced on their farm is not their bread. It is the bread of the territory because everyone has been involved in the production. For that, they use sustainable practices in agriculture and organize events connected to them. You can have an overview of the activities organized by the center : [www.tularu.it](http://www.tularu.it) (in Italian). By joining this workcamp you will contribute to the Sustainable Development Goals: **SustainableCommunities -SDG11, SustainableConsumption&Production-SDG12, and LifeOnLand-SDG15**

**PROJECT:** Through the work produced on the work-camp, the volunteers and the locals are going to prepare everything for the feast (a small festival organized around the farmers work). In 4 years they have created a local network and for the third time, in 2020 another farm in the territory, named Colle Berardino, will organize another harvest feast, in Rocca Sinibalda (30 km from Tularù). In order to raise a solidarity spirit, the volunteers in Tularù will help the friends in Rocca Sinibalda. In the same way, they will help during the harvest feast in Tularù. Volunteers will be involved in other activities with local associations in Cittaducale, like cleaning rural walks or others.

**WORK:** A Feast is an event around the agricultural activities going along with a small festival, with music, workshops, and events. All the following tasks will be done by the volunteers:

- Preparation of the interior and external spaces in Tularù
- Assistance in the kitchen, reaping and harvesting by hand during and after the feast.
- Public reception.
- Reaping and harvesting by hand during the feast.
- Collaboration with other local associations for social works like cleaning rural walks or others.

One big part of the work is the self-organization and the group work. There are a lot of things to do, but we want you to participate in how this things can be done. It's important to come with a proactive attitude, knowing that sometimes you will do things without us. Being an agricultural activity, the dates of the Feasts should be 24th,25th, 26th July, but they are not fixed in advance since they mostly depend on the weather. In case of bad weather, other tasks will be performed.

**ACCOMMODATION AND FOOD:** The volunteers will be accommodated in the tents provided by the host or by the volunteers if preferred, close to the farmhouse where the local staff lives. Sleeping bags and mattresses are required. There are a compost toilet and a shower outside with hot water (from thermocompost), but in case of need is possible to use the internal bathrooms. The meals, vegetarian and not, will be cooked together with volunteers. The aim is to help with the renovation of different portions of the historical center through various types of interventions, to preserve the historical importance of the medieval hamlet.

Volunteers are strongly encouraged to take part in the numerous workshops available, to gain valuable skills and strengthening the bonds with other volunteers and the local community.

This project is part of a “megaproject” involving 3 municipalities (Montasola, Casperia and Roccantica), consisting of 3 independent workcamps taking place at the same time, that will culminate in a large final event involving all the volunteers from every camp, working together to organize the event’s activities (food, music, entertainment) and to involve the local community and institutions that will participate. This intercultural festival has the aim of bringing people together and show the results of the volunteers’ work to the community.

**WORK:** Volunteers will support the local community in the historical center renovation efforts, carrying out various tasks such as painting, cleaning, and various kinds of construction and restoration work. Part of the renovation efforts will also be aimed at the maintenance of the paths surrounding the village, realized by the volunteers of previous workcamps.

Volunteers will be able to take part in a wide range of workshop and formative activities. Workshops will focus on the manufacturing of typical local products according to traditional techniques, such as cheese, handmade pasta, bread, pizza, soap, etc. Several activities focus on movement and contact with nature: many excursions are organized (hiking, trekking, orienteering, night under the stars, etc.), in addition to the possibility of practicing several sports (climbing, low ropes, yoga, etc.). Additionally, there is the chance to learn farm animals handling and milking from the locals.

Furthermore the volunteers will be directly involved in the organization of 2 intercultural festivals with the local community, one halfway through the camp and one that will reunite the 3 concurrent workcamps in the region at the end of the camps.

**ACCOMMODATION AND FOOD:** Accommodation will be in ALA’s own hostel, fitted with toilets and showers. Volunteers will have access to a working kitchen and will cooperate in the preparation of meals, using available local and organic products, according to seasonality and sustainability. Volunteers will also have to share cleaning duties.

The landscape has remained substantially unchanged over time and almost not affected by modern building development.

The volunteers will have the opportunity to spend their free time in various leisure activities, such as hikes, workshops, sports practice.

**PARTNER:** "Il Pungiglione" is a co-operative that contributes to the development of the local community through the implementation of "Welfare Services" and "production-work" activities, alongside the municipal and partner organizations.

For years it's been engaged in the crucial work of implementing social policies aimed at improving the quality of life, and in the management of social services and intervention.

By joining this workcamp you will contribute to the Sustainable Development Goals:

**ReducedInequalities-SDG10** and **SustainableCommunities-SDG11.**

**PROJECT:** The project will take place in our "House" in Civita Castellana. This center includes many important structures and services for the individual: the family home "L'abbraccio di Arianna", the PAI (Individual Assistance Planning) house "Sergio Smargiassi", the apartment group "Casa 45 - dopo di noi" and the PAI daily service. PAI facilities are dedicated to the development and improvement of the autonomy skills of individuals with disabilities.

The physical portion of the planned work is to support with the maintenance of the facility, while the social aspect of the project focuses on the local community and the daily activities of the center's attendants, in which the volunteers will take part.

It is important to keep the personal and common areas clean, to respect the guests personal spaces and to observe silence in the guests' hours of rest.

**WORK:** The primary work of the volunteers will revolve around the maintenance and redecoration of the social garden and the service structures. In particular, the project foresees the adoption of a decorative flowerbed in a pedestrian square in the social district, as well as a new entrance for the daytime center. These tasks will be carried out side by side with the center's guests, who are people with a varying degree of disability.

Volunteers will aid in the daily activities of the House's guests, accompany them in summer outings in the territory, as well as organize thematic evenings with other local realities. These activities will culminate in a great open-air party with the whole local community to celebrate the cohesion with the associations and citizens of Civita.

Workdays will be 6 hours long, with 2/3 free days for resting.

**ACCOMMODATION AND FOOD:** The local host will make a guest house available for the volunteers' accommodation, on the premises of the facility, fitted with a kitchen to let the volunteers prepare their own meals for breakfast and lunch. Dinner will instead take place within the 3 family houses. Local and seasonal products are prioritized, and vegetables and fruit are available for vegetarian menus.

The guest house will have annexed services and showers, and a washing machine.

No beds are present, so volunteers are required to bring their own sleeping bag and inflatable mattress.

**LOCATION AND LEISURE:** Civita Castellana is a small town in the province of Viterbo (one hour from Rome), is a place rich in history and natural beauty.
