Congratulations,

Now you are holding our workcamp program for 2020 in your hands.

All our workcamps will take place in the north-eastern part of Germany: in or near Mecklenburg-Western Pomerania. This area is well-known for its beautiful countryside and the large amount of lakes.

On the [map you can find the exact places](#) where we are arranging workcamps this year.

You are cordially invited to participate in one (or more 😊) of them!

your NiG-Team

The camps

Every year, NiG organizes about 15-20 workcamps and youth meetings in our country. In a workcamp you are in a group of around 10 young people from different nations between 18 and 27, in exceptional cases at the age of 16. A work camp lasts 2 or 3 weeks. The camp language is usually English. Your work is voluntary and of benefit for the public.

You will work five days a week, a total of 30 hours. You are obliged to work because the towns, institutions and authorities with whom we cooperate with are counting on your help. Your work is unpaid, but accommodation and food are free. The accommodation is in school dormitories, student hostels or tents. Please bring a sleeping bag as well as working clothes and shoes with you.

There will be many leisure time activities, events, meetings and excursions in which you can take part. Trips for instance to Berlin are also possible. We also expect you to bring in your own ideas!

If you want to participate in a camp

The program of our work camps is published in March. If you find an appropriate work camp, please fill out the volunteer exchange form and send it to our office. You should write down alternative choices, in case it is not possible to take part in the camp you wish to.

You have to cover all costs for travelling to and from the work camp yourself. We advise you to book your tickets as early as possible in order to benefit from discount prices.

Insurance

In our camps, you are covered by insurance in case of accidents and /or illness. This insurance does not cover eye- glasses, dental treatments or cars. Please check your own insurance coverage abroad before travelling here. We advise that you buy insurance from a private health insurance company that covers transportation home in case of necessity (available at travel agencies). You may also think about insurance for your baggage.

Registration fee

There is no reistration fee for participation in NiG workcamps.

The location

The NiG office is located in Rostock. It is the biggest historical hanseatic city of the northeastern part of Germany, with about 200 000 residents. Rostock was founded in the 13th century and is a city with many faces, surrounded by a beautiful landscape.

It is worth seeing in every season. Rostock is well known for its interesting architecture: merchant houses, beautiful churches and remains of old city walls and gates give evidence of the city's former power and wealth. Ship building and maritime trade have always been important for Rostock. Ferry lines connect the city with other countries. Rostock is also famous for its University (founded in 1419). There are many interesting events for young people and students. You can go to cabaret, concerts, student clubs and discos, theatres and cinemas. The former fishing village, Warnemünde which became part of the growing city, is located where the river Warnow flows into the Baltic Sea. There is a wonderful beach and excellent opportunities for swimming and relaxing. Our work camps are mainly located in the federal country of Mecklenburg- West Pomerania, to which Rostock also belongs. This area is well- known for its traditional towns and villages and for its thousand lakes, islands and natural resources. For further information please visit the website www.rostock.de (also available in English).

Advantages of taking part in a work camp

1. You only pay your travel expenses. Accommodation and food are for free.
2. We may certify your participation as a practical training. Please contact us after the workcamp.
3. You are able to help and to solve urgent problems in the region of Mecklenburg - Western Pomerania.
4. In the social field, we care especially for kids and handicapped people. Young people who plan to work in a social profession can find valuable experience here.
5. You will meet other young people and take part in real teamwork, which leaves lasting impressions. That is why many volunteers like to come again.
6. Last but not least you are given the chance to experience different regions, people and traditions.
