

全年計畫主題速寫

- WF340 協助 Hafnarfjörður 城鎮環境維護與設備修繕 參與環保議題教育
- WF341 協助 Hafnarfjörður 城鎮環境維護與設備修繕 參與環保議題教育
- WF343 協助 Hafnarfjörður 城鎮環境維護與設備修繕 參與環保議題教育
- WF344 協助 Hafnarfjörður 城鎮環境維護與設備修繕 參與環保議題教育
- WF345 協助 Hafnarfjörður 城鎮環境維護與設備修繕 參與環保議題教育
- WF346 協助 Hafnarfjörður 城鎮環境維護與設備修繕 參與環保議題教育
- WF342 協助當地環境組織 GFF 種樹以利預防水土流失 參與環保議題教育
- WF08 在 Hveragerði 小鎮協助農作種植與探討暖化問題
- WF09 在 Hveragerði 小鎮協助農作種植與探討暖化問題
- WF10 在 Hveragerði 小鎮協助農作種植與探討暖化問題
- WF11 在 Hveragerði 小鎮協助農作種植與探討暖化問題
- WF12 在 Hveragerði 小鎮協助農作種植與探討暖化問題
- WF13 在 Hveragerði 小鎮協助農作種植與探討暖化問題
- WF14 在 Hveragerði 小鎮協助農作種植與探討暖化問題
- WF15 在 Hveragerði 小鎮協助農作種植與探討暖化問題
- WF16 在 Hveragerði 小鎮協助農作種植與探討暖化問題
- WF17 在 Hveragerði 小鎮協助農作種植與探討暖化問題
- WF18 在 Hveragerði 小鎮協助農作種植與探討暖化問題
- WF19 在 Hveragerði 小鎮協助農作種植與探討暖化問題
- WF20 在 Hveragerði 小鎮協助農作種植與探討暖化問題
- WF21 在 Hveragerði 小鎮協助農作種植與探討暖化問題
- WF22 在 Hveragerði 小鎮協助農作種植與探討暖化問題
- WF23 在 Hveragerði 小鎮協助農作種植與探討暖化問題
- WF24 在 Hveragerði 小鎮協助農作種植與探討暖化問題
- WF25 在 Hveragerði 小鎮協助農作種植與探討暖化問題
- WF27 協助 1874 冰島自治慶典維護場地清潔
- WF31 協助 Flúðir 社區種樹與探討各類環境議題
- WF401 協助 Snæfellsnes 半島清理海岸 種植樹木 與修繕步道

- WF402 協助 Snæfellsnes 半島清理海岸 種植樹木 與修繕步道
- WF206 環境維護與設備修繕 漂浮木做裝置藝術 參與全球暖化工作坊
- WF218 環境維護與設備修繕 漂浮木做裝置藝術 參與全球暖化工作坊
- WF219 環境維護與設備修繕 漂浮木做裝置藝術 參與全球暖化工作坊
- WF220 環境維護與設備修繕 漂浮木做裝置藝術 參與全球暖化工作坊
- WF221 環境維護與設備修繕 漂浮木做裝置藝術 參與全球暖化工作坊
- WF222 環境維護與設備修繕 漂浮木做裝置藝術 參與全球暖化工作坊
- WF223 環境維護與設備修繕 漂浮木做裝置藝術 參與全球暖化工作坊
- WF224 環境維護與設備修繕 漂浮木做裝置藝術 參與全球暖化工作坊
- WF207 環境維護與廢物再利用(漂浮木做裝置藝術)
- WF208 環境維護與廢物再利用(漂浮木做裝置藝術)
- WF209 環境維護與廢物再利用(漂浮木做裝置藝術)
- WF210 環境維護與廢物再利用(漂浮木做裝置藝術)
- WF211 環境維護與廢物再利用(漂浮木做裝置藝術)
- WF212 環境維護與廢物再利用(漂浮木做裝置藝術)
- WF213 環境維護與廢物再利用(漂浮木做裝置藝術)
- WF214 環境維護與廢物再利用(漂浮木做裝置藝術)
- WF215 環境維護與廢物再利用(漂浮木做裝置藝術)
- WF216 環境維護與廢物再利用(漂浮木做裝置藝術)
- WF217 環境維護與廢物再利用(漂浮木做裝置藝術)
- WF404 環境維護與參與環保議題教育 協助青年藝術節慶準備活動與文化交流
- WF39 Eistnaflug 重金屬音樂節各類庶務
- WF129 環境維護與設備修繕 參與環保議題教育與文化交流
- WF130 環境維護與設備修繕 參與環保議題教育與文化交流
- WF131 環境維護與設備修繕 參與環保議題教育與文化交流
- WF132 環境維護與設備修繕 參與環保議題教育與文化交流
- WF133 環境維護與設備修繕 參與環保議題教育與文化交流
- WF134 環境維護與設備修繕 參與環保議題教育與文化交流
- WF135 環境維護與設備修繕 參與環保議題教育與文化交流
- WF136 環境維護與設備修繕 參與環保議題教育與文化交流

- WF137 環境維護與設備修繕 參與環保議題教育與文化交流
- WF138 環境維護與設備修繕 參與環保議題教育與文化交流
- WF256 在 Langesbygd 漁村協助環境維護與參與環保議題教育
- WF258 在 Langesbygd 漁村協助環境維護與參與環保議題教育
- WF260 在 Langesbygd 漁村協助環境維護與參與環保議題教育
- WF262 在 Langesbygd 漁村協助環境維護與參與環保議題教育
- WF264 在 Langesbygd 漁村協助環境維護與參與環保議題教育
- WF304 記錄冰島並出版線上雜誌、探討氣候變遷議題(自行攜帶電腦與相機)
- WF305 記錄冰島並出版線上雜誌、探討氣候變遷議題(自行攜帶電腦與相機)
- WF306 記錄冰島並出版線上雜誌、探討氣候變遷議題(自行攜帶電腦與相機)
- WF307 記錄冰島並出版線上雜誌、探討氣候變遷議題(自行攜帶電腦與相機)
- WF314 記錄冰島並出版線上雜誌、探討氣候變遷議題(自行攜帶電腦與相機)
- WF308 記錄冰島並發表於 FB、IG，出版線上雜誌、探討氣候變遷議題(自行攜帶電腦與相機)
- WF309 記錄冰島並發表於 FB、IG，出版線上雜誌、探討氣候變遷議題(自行攜帶電腦與相機)
- WF310 記錄冰島並發表於 FB、IG，出版線上雜誌、探討氣候變遷議題(自行攜帶電腦與相機)
- WF311 記錄冰島並發表於 FB、IG，出版線上雜誌、探討氣候變遷議題(自行攜帶電腦與相機)
- WF312 記錄冰島並發表於 FB、IG，出版線上雜誌、探討氣候變遷議題(自行攜帶電腦與相機)
- WF313 記錄冰島並發表於 FB、IG，出版線上雜誌、探討氣候變遷議題(自行攜帶電腦與相機)
- WF500 (16-18 歲) 探討氣候變遷議題 學習數碼攝影與跨文化交流
- WF501 (14-17 歲) 探討氣候變遷議題 學習數碼攝影與跨文化交流
- WF502 (14-17 歲) 探討氣候變遷議題 學習數碼攝影與跨文化交流
- WF503 (14-17 歲) 探討氣候變遷議題 學習數碼攝影與跨文化交流
- WF504 (14-17 歲) 探討氣候變遷議題 學習數碼攝影與跨文化交流
- WF505 (14-17 歲) 探討氣候變遷議題 學習數碼攝影與跨文化交流

WF506 (14-17 歲)探討氣候變遷議題 學習數碼攝影與跨文化交流

WF344 Hafnarfjordur – the village in the lava	20/07 – 29/07	ENVI/MANU	14 vols
WF345 Hafnarfjordur – the village in the lava	30/07 – 08/08	ENVI/MANU	14 vols
WF346 Hafnarfjordur – the village in the lava	09/08 – 18/08	ENVI/MANU	14 vols

Project Location: Hafnarfjörður is the third largest town in Iceland, with a population of over 26,000. A progressive municipality that focuses on ensuring a friendly environment. It is only 10 km away from the center of Reykjavík.

Hafnarfjörður is a unique town with an extraordinary history, where daily life and culture thrives in the middle of an old lava field. The town had a population of approximately 1400 when it was granted municipal status. Now, a century later, the population has exploded. However, the town retains its small-town air, its rural aura and its heart - which is not surprising given that the town prides itself on the largest unbroken neighborhood of corrugated iron-clad timber houses in Iceland. The town has grown quickly over the past few years and the new neighborhoods have attracted a diverse community of people who understand that Hafnarfjörður offers a great range of commercial outlets and services, an active cultural life and plenty of activities.

The town is famous for having one of Iceland's largest settlements of elves, dwarves and the so-called 'Hidden Folk.' Centuries-old folklore has it that whole clans of such beings reside in the rocks that make up part of the town's centre. We do not doubt this at all. Though elves are visible only to those with second sight, many Icelanders believe in their existence. Indeed, there are many stories to support this belief and reports of cases where the construction of new roads or housing developments were hindered by strange happenings abound. Hidden Folk are highly respected all over Iceland, especially in Hafnarfjörður. There is even a Hidden Worlds tour that takes to their home sites, including Hellisgerdi Park and the base of the cliff Hamarinn, which is said to be home to the Royal Family of the Hidden Folk. Along the way, the guide relates ancient folk tales of the magical hidden worlds and narrates how the town developed in harmony with the Hidden Folk.

For more information take a look at: <http://www.hafnarfjordur.is/english/>

Work: Volunteers will have environmental tasks in different areas in and around Hafnarfjordur, for example cleaning the coastline, planting trees, taking down old fences, removing lupines or other plants and fixing hiking paths.

Our work will also depend on weather conditions, which is why we have to be flexible. You should be prepared for unfriendly weather, but hopefully, the weather will be nice most of the time. This is a perfect camp for people who like outdoor work and physical challenges. Working hours are about 6 hours a day, 5 days a week.

Within the project we will have educational sessions to learn about green energy, sustainable householding, waste treatment, nutrition, the effects of consumption and lots more. If you want to change something, develop solutions or inspire others, you must understand the issues and tasks first. In addition to the theoretical part we are going to practice sustainable work. For example, planting trees is one of the main exercises of the camps. Planting trees becomes a very useful action against climate change because trees absorb carbon dioxide, clean the air and prevent erosions. Take part in this promising project and spring into action against climate change!

Leisure: Worldwide Friends volunteers have free access to the local geothermal-heated swimming pool in Hafnarfjordur. Traditionally, natural pools have played an important social role in Icelandic culture. Most Icelandic pools offer indoor and outdoor swimming, as well as hot tubs and saunas or steam rooms.

WF Iceland will also organise reasonably priced weekend excursions to some of the most popular, beautiful areas and natural wonders that Iceland has to offer. Excursions include unique Icelandic sights such as glacial lagoons, waterfalls, volcanic and

geothermal areas, glaciers, geysers, lava forests, hot-springs, rhyolite mountain ranges, steam-vents, or even icebergs. Take a look at <http://wf.is/excursions/>

Accommodation and Food: Worldwide Friends volunteers stay in a community building offering basic sleeping and cooking facilities. Volunteers need to bring their own sleeping bag and towels, but mattresses and bed linens are provided. Wireless internet access is provided free of charge. The accommodation is located within short walking distance of many urban amenities, including banks, pharmacies, supermarkets, public swimming pools, restaurants, cafes, libraries, theatres, shops, museums, and bus stations.

Food is included for the duration of the workcamp, however, everyone is expected to do their fair share of the cooking and cleaning. Since it is always nice to try new and different dishes, volunteers are encouraged to bring along their favourite recipes (and spices) from home!

Requirements: There are no requirements for this camp

Terminal: Flights arrive at Keflavik International Airport (KEF), just south of Reykjavik. The meeting point is at 08.00 am at the first day of the camp in Tjarnargata 11 which is the city hall of Reykjavik

Additional information: There is an extra participation fee of 350 euros for this workcamp. The fee includes a minibus trip from the meeting point of the camp to the accommodation and the Golden Circle South Iceland excursion.

WF342 Preventing the erosion in Reykjanes peninsula **11/07 – 24/07** **ENVI/MANU** **15 vols**

Project Location: The work will take place in the Reykjanes peninsula which is located on a drift zone, between two continents, the North American plate and the Eurasian plate. It is a unique site where you can find different elements that exist because of the drift zone; geothermal energy and lava fields. There you can find a lot of natural phenomenon such as Gunnhver hot spring, Krysuvik, the bridge between continents and Hafnaberg sea cliffs.

The volunteers will be staying in Hafnarfjörður which is the third largest town in Iceland, with a population of over 26,000. A progressive municipality that focuses on ensuring a friendly environment. It is only 10 km away from the center of Reykjavik.

Hafnarfjörður is a unique town with an extraordinary history, where daily life and culture thrives in the middle of an old lava field. The town had a population of approximately 1400 when it was granted municipal status. Now, a century later, the population has exploded. However, the town retains its small-town air, its rural aura and its heart - which is not surprising given that the it prides itself on the largest unbroken neighborhood of corrugated iron-clad timber houses in Iceland. The town has grown quickly over the past few years and the new neighborhoods have attracted a diverse community of people who understand that Hafnarfjörður offers a great range of commercial outlets and services, an active cultural life and plenty of activities.

The town is famous for having one of Iceland's largest settlements of elves, dwarves and the so-called 'Hidden Folk.' Centuries-old folklore has it that whole clans of such beings reside in the rocks that make up part of the town's centre. We do not doubt this at all. Though elves are visible only to those with second sight, many Icelanders believe in their existence. Indeed, there are many stories to support this belief and reports of cases where the construction of new roads or housing developments were hindered by strange happenings abound. Hidden Folk are highly respected all over Iceland, especially in Hafnarfjörður. There is even a Hidden Worlds tour that takes to their home sites, including Helligerdi Park and the base of the cliff Hamarinn, which is said to be home to the Royal Family of the Hidden Folk. Along the way, the guide relates ancient folk tales of the magical hidden worlds and narrates how the town developed in harmony with the Hidden Folk.

For more information take a look at: <http://www.hafnarfjordur.is/english/>

Work: We will be working with GFF which is one of the leading environmental organization in south Iceland. The purpose of the association is to prevent the soil erosion around the capital area of Reykjavik and to make the eco system stronger and sustainable. To reach those goals GFF is planting natural species to restore lost land and at the same time create an environment that people in the capital area can enjoy in the future. The area of Reykjanes peninsula is very volcanic and full of lava fields, because of the that the vegetation is very poor in some places and

a lot of need to revegetate the areas. We will help GFF to do that work. You can find further information is their website www.gff.is

Within the project we will have educational sessions to learn about green energy, sustainable householding, waste treatment, nutrition, the effects of consumption and lots more. If you want to change something, develop solutions or inspire others, you must understand the issues and tasks first.

Our work will depend on weather conditions, which is why we must be flexible. You should be prepared for unfriendly weather, but hopefully, the weather will be nice most of the time. This is a perfect camp for people who like outdoor work and physical challenges. Working hours are about 6 to 7 hours a day, 5 days a week.

Leisure: There are two excursions included in the project fee - The [Golden Circle South Iceland](#) excursion and [The Snæfellsnes peninsula](#) excursion. Worldwide Friends volunteers have free access to the local geothermal-heated swimming pool in Hafnarfjörður. Traditionally, natural pools have played an important social role in Icelandic culture. Most Icelandic pools offer indoor and outdoor swimming, as well as hot tubs and saunas or steam rooms.

WF Iceland will also organise other reasonably-priced weekend excursions to some of the most popular, beautiful areas and natural wonders that Iceland has to offer. Excursions include unique Icelandic sights such as glacial lagoons, waterfalls, volcanic and geothermal areas, glaciers, geysers, lava forests, hot-springs, rhyolite mountain ranges, steam-vents, or even icebergs.

Accommodation and Food: Worldwide Friends volunteers stay in a community building offering basic sleeping and cooking facilities. Volunteers need to bring their own sleeping bag and towels, but mattresses and bed linens are provided. Wireless internet access is provided free of charge. The accommodation is located within short walking distance of many urban amenities, including banks, pharmacies, supermarkets, public swimming pools, restaurants, cafes, libraries, theatres, shops, museums, and bus stations.

Food is included for the duration of the workcamp; however, everyone is expected to do their fair share of the cooking and cleaning. Since it is always nice to try new and different dishes, volunteers are encouraged to bring along their favourite recipes (and spices) from home!

Terminal: Flights arrive at Keflavik International Airport (KEF), just south of Reykjavik, Iceland. The meeting point is at 13.00 at the first day of the camp in Tjarnargata 11 which is the city hall of Reykjavik. From that place we will move you to the camp accommodation in Hafnarfjörður.

Additional information: There is an extra participation fee of 400 euros for this workcamp, the fee includes two full day excursions. The [Golden Circle South Iceland](#) excursion and [The Snæfellsnes peninsula](#) excursion

WF25	Hveragerði – Health and environment	07/12 – 21/12	ENVI / MANU	8 vol

Project location: Hveragerði is a small town of about 1,700 inhabitants that lies some 45 km east of Reykjavík. This friendly little community sits on top of a highly active geothermal field, which provides heat for hundreds of greenhouses where fruits, flowers and vegetables are produced throughout the year. Even bananas grow in these greenhouses! The name Hveragerði means ‘hot springs garden.’ Geothermal energy is Hveragerði’s lifeblood, and you probably won’t find such a natural wonder in the middle of a populated area anywhere else in the world. Nearby you will find an even more geothermally active site: Gufudalur, the lovely ‘Steam Valley’ behind the town. This whole valley is full of hot springs, geysers, mud pots, fumaroles and steaming vents.

Our host is a non-profit organisation called the NLFI Rehabilitation and Health Clinic, which is part of the Natural Health Association of Iceland. Every year approximately 2,000 patients and other guests enjoy their diverse rehabilitation programs, which are focused on an approach that builds self-confidence and personal responsibility for the patients’ own health. The clinic has earned a solid reputation, both in Iceland and internationally, since its foundation in 1955 for personal and effective care of patients. It is one of the two most important rehabilitation clinics in Iceland. In the last years this ongoing camp has been the most popular camp in our organisation.

Work: The Natural Health Association has a horticultural and environmental department, including forestry, gardening, and greenhouses, which is where Worldwide Friends volunteers work most of the time. Volunteers will help with growing tomatoes, cucumbers and making tea made of Icelandic herbs and also do some environmental work around the property. The nature of the work depends largely on weather conditions, which can change quickly. Volunteers should bring clothes appropriate for outdoor work, but also clothes for working inside the warm greenhouses. Working hours are usually from 9 a.m. to 3 p.m. and volunteers will have a one-hour lunch break.

We will give a special focus on global warming during the camp and the volunteers will have workshops about climate change. The issue of global warming is well known all over the world. The humanity must act in a more environmentally friendly way. The main goal of this project is to improve the environmental education and consciousness of the projects’ participants. Within the project we will learn about green energy, sustainable householding, waste treatment, nutrition, the effects of consumption and lots more. If you want to change something, develop solutions or inspire others, you have to understand the issues and tasks first. Take part in this promising project and spring into action against climate change!

Leisure: Worldwide Friends volunteers have free access to the local geothermally heated swimming pool. Traditionally, natural pools have played an important social role in Icelandic culture. Most Icelandic pools offer indoor and outdoor swimming, as well as hot tubs and saunas or steam rooms. Hveragerði is known for having great areas for hiking, including the hot river in Reykjadalur.

WF Iceland will also organise reasonably priced weekend excursions to some of the most popular, beautiful areas and natural wonders that Iceland can offer. Excursions include unique Icelandic sights, such as glacial lagoons, waterfalls, volcanic and geothermal areas, glaciers, geysers, lava forests, hot-springs, rhyolite mountain ranges, steam-vents or even icebergs. Take a look at <http://wf.is/excursions/>

We will also focus on intercultural learning and exchange. Every evening, volunteers from different countries will present their country of origin and culture in an informal way. It can be a presentation, a game, theatre – the form of introduction is up to you! Therefore, we encourage you to bring along some food, photos or anything interesting related to your country for a fun and informative evening amongst other volunteers.

This workcamp gives you the opportunity to spend an amazing time in Iceland with other international volunteers and to have an incredible experience where participants share their knowledge with each other while exploring creativity, environmental issues and intercultural learning.

Accommodation and food: Worldwide Friends volunteers will be staying in a fully equipped bungalow consisting of several single and/or double bedrooms and a living room. Volunteers need to bring their own sleeping bag, but beds and sheets are provided. Wireless internet access is provided free of charge.

Food is included for the duration of the workcamp, however, everyone is expected to do their fair share of the cooking and cleaning. Since it is always nice to try new and different dishes, volunteers are encouraged to bring along their favourite recipes from home!

Language: A basic knowledge of English is required for this workcamp.

Requirements: No special requirements

Terminal: Flights arrive at Keflavik International Airport (KEF), just south of Reykjavik. The meeting point is at 08.00 am at the first day of the camp in Tjarnargata 11 which is the city hall of Reykjavik.

Additional information: There is an extra participation fee of 350 euros for this workcamp. The fee includes a minibus trip from the meeting point of the camp to Hveragerdi and the [Golden Circle South Iceland](#) excursion.

WF27 The most amazing festival in Iceland - Vestmanneyjar festival 30/07 – 05/08 FEST/MANU 15 vol

Project and location: For thirteen years we have been doing this project and it has been one of the highlights each year. If you want to see the most famous or up-and-coming musicians in Iceland, then this is the camp for you.

The Westman Islands consist of a group of fifteen islands, which are situated within a short distance off the south coast of Iceland. They are named after the Nordic settlers in the country, namely the Irish, which is why they are called the "westmen" (the men from the west). All islands were created in submarine volcanic eruptions during a comparatively recent geological time period. The colourful town, the beautiful bird cliffs, the new lava and volcanoes and the landscape in general give the islands a scenic interest as varied in character as any in the country. Heimaey is the largest and only inhabited island in the group and Iceland's longest off-shore island with an area of 13.4 km². Fishing, fish processing and subsidiary trades are the main source of income. Heimaey is sheltered in the north by low mountains and the imposing birdlife of Heimaklettur, which protects the narrow cove at the end of which the harbour lies.

The festival: On the first weekend of August, Icelanders celebrate the 1874 grant of Icelandic sovereignty with a huge festival in the town on Heimaey. The celebration takes place in a tent city in Herjólfsdalur, west of the town, where an extended weekend of bonfires, dance and song takes place with the most famous bands in Iceland entertaining the guests. This festival is the most popular one in Iceland.

Work: Volunteers will help keep the festival area clean. They will work 4 to 5 hours a day, after which they will have free time to enjoy this amazing festival, which is number one in Iceland when it comes to culture and music.

Leisure time: Free access to the local swimming pool. Free access to all festival activities. Take your hiking shoes so you can discover the great hikes in the island. A lot of time to enjoy the festival

Accommodation and food: Worldwide Friends volunteers will be staying in a community centre in Heimaey, offering basic facilities. Participants are asked to bring their own warm sleeping bags and mats.

Food will be provided for the duration of the workcamp, however, everyone is expected to do their fair share of the cooking and cleaning. Since it is always nice to try new and different dishes, volunteers are encouraged to bring along their favourite recipes from home!

Language: A basic knowledge of English is required for this workcamp.

Requirements: No special requirements

Terminal: Flights arrive at Keflavik International Airport (KEF), just south of Reykjavik, Iceland. The meeting point is at 08.00 am at the first day of the camp in Tjarnargata 11 which is the city hall of Reykjavik

Additional information: There is an extra participation fee of 400 euros for this workcamp. The fee includes a minibus trip from the meeting point of the camp to Vestmannaeyjar and the [Golden Circle South Iceland](#) excursion + ferry fee.

WF31 Flúðir – the diamond in the middle of The Golden Circle 21/06 – 29/06 ENVI/MANU 8 vol

Project location: This camp will take place in a small community called Flúðir, which is located in the middle of The Golden Circle in Iceland. In the area, you can find some of the historical places in Iceland, for example, Þingvellir, which is by far Iceland's most famous historic site and one of the two places in Iceland in the UNESCO World Heritage list.

Nowhere on earth is the junction between the European and American tectonic plates in the Earth's crust as clear as in the southwest and at Þingvellir. The plates diverge here by as much as 2 cm per year, but the gap is constantly being filled, as volcanoes have been erupting regularly throughout Iceland's history.

The region also has other attractions: places of outstanding natural beauty include magnificent waterfalls, of which Gullfoss (Golden Falls) is the best known. The best-known hot spring is Geysir, from which derives the English word "geyser" for spouting hot springs: the big Geysir is surrounded by many more springs of all shapes and sizes.

A little further to the east are two of Iceland's most active volcanoes. Mt. Hekla has erupted about 20 times in Icelandic history, and Mt. Katla, under the Mýrdalsjökull glacier, is almost as active. Many years have now passed since Mt. Katla last erupted, and according to geoscientists, it is long overdue for another burst of activity.

Work: The volunteers will be working with the environmental department of the community. Most of the work will consist of planting trees and taking care of the environment in the surrounding area.

Our work will also depend on weather conditions, which is why we have to be flexible. This is a perfect camp for people who like outdoor work and physical challenges in a beautiful environment.

We will give a special focus on global warming during the camp and the volunteers will have workshops about climate change. The issue of global warming is well known all over the world. The humanity must act in a more environmentally friendly way. The main goal of this project is to improve the environmental education and consciousness of the projects' participants. Within the project we will learn about green energy, sustainable householding, waste treatment, nutrition, the effects of consumption and lots more. If you want to change something, develop solutions or inspire others, you have to understand the issues and tasks first. Take part in this promising project and spring into action against climate change!

Leisure: Worldwide Friends volunteers have free access to the local geothermally heated swimming pool in the area. Traditionally, natural pools have played an important social role in Icelandic culture. Most Icelandic pools offer indoor and

outdoor swimming, as well as hot tubs and saunas or steam rooms. Hveragerði is known for having great areas for hiking, including a river heated by hot springs.

WF Iceland will also organise reasonably priced weekend excursions to some of the most popular, beautiful areas and natural wonders that Iceland has to offer. Excursions include unique Icelandic sights, such as glacial lagoons, waterfalls, volcanic and geothermal areas, glaciers, geysers, lava forests, hot-springs, rhyolite mountain ranges, steam-vents or even icebergs.

We will also focus on intercultural learning and exchange. Every evening, volunteers from different countries will present their country of origin and culture in an informal way. It can be a presentation, a game, theatre – the form of introduction is up to you! Therefore, we encourage you to bring along some food, photos or anything interesting related to your country for a fun and informative evening amongst other volunteers.

This workcamp gives you the opportunity to spend an amazing time in Iceland with other international volunteers and to have an incredible experience where participants share their knowledge with each other while exploring creativity, environmental issues and intercultural learning.

Accommodation and food: Worldwide Friends volunteers will be staying at a local school. Volunteers need to bring their own sleeping bags, but mattresses are provided. Wireless internet access is provided free of charge.

Food will be provided for the duration of the workcamp, however, everyone is expected to do their fair share of the cooking and cleaning. Since it is always nice to try new and different dishes, volunteers are encouraged to bring along their favourite recipes from home!

Language: A basic knowledge of English is required for this workcamp.

Terminal: Flights arrive at Keflavik International Airport (KEF), just south of Reykjavik, Iceland. The meeting point is at 08.00 am at the first day of the camp in Tjarnargata 11 which is the city hall of Reykjavik

CAMPS IN THE WEST OF ICELAND

WF401 Stykkisholmur – The Secret of Snæfellsnes 11/06 – 25/06

ENVI/MANU

WF402 Stykkisholmur – The Secret of Snæfellsnes 08/07 – 22/07

ENVI/MANU

Project and location:

The beautiful town of Stykkishólmur is situated in the western part of Iceland, to the north of the Snæfellsnes peninsula. With its 1,540 inhabitants, it is a centre of services and commerce for the area. Most of the people make their living from fishing and tourism. A ferry goes over the Breiðafjörður to the West Fjords. The village features picturesque old houses, the oldest of which, the Norwegian House, is a folk museum, where exhibitions are frequently held. The film „Secret life of Walter Mitty was filmed there. The Snæfellsnes peninsula and Breiðafjörður bay are renowned for their natural beauty and remarkable wildlife.

Snæfellsnes is sometimes called „Iceland in miniature,” due to its many different kinds of geology all in one place, you can't miss this if you want to capture the true spirit and beauty of the island.

There are several pleasant hikes to be made within the Stykkishólmur area. A walk along Súgandisey by the harbour will reveal a unique panoramic view.

Work: During the workcamp we will do different kind of environmental work, for example clean the coastline, plant trees and maintaining hiking paths.

Our work will also depend on weather conditions and that's why we have to be flexible. Please keep in mind that the work might be physically hard, and you should be prepared for unfriendly weather, even though, hopefully, it will be nice most of the time. This is a perfect camp for people who like outdoor work and physical challenges.

Leisure time: Worldwide Friends volunteers have free access to the local geothermal-heated swimming pool in the village. Traditionally, natural pools have played an important social role in Icelandic culture. Most Icelandic pools offer indoor and outdoor swimming, as well as hot tubs and saunas or steam rooms. WF Iceland will organise reasonably-priced weekend excursions to some of the most popular, beautiful areas and natural wonders that Iceland has to offer. Excursions include unique Icelandic sights, such as waterfalls, volcanic and geothermal areas, glaciers, lava forests, hot-springs, rhyolite mountain ranges, steam-vents or even icebergs.

Take a look at <http://wf.is/excursions/>

We will also organize leisure activities for the group. The area around the village is also good for hiking so please bring your hiking shoes.

Within the project we will learn about green energy, sustainable householding, waste treatment, nutrition, the effects of consumption and lots more. If you want to change something, develop solutions or inspire others, you have to understand the issues and tasks first. In addition to the theoretical part we are going to practice sustainable work. For example, planting trees is one of the main exercises of the camps. Planting trees becomes a very useful action against climate change because trees absorb carbon dioxide, clean the air and prevent erosions. Take part in this promising project and spring into action against climate change!

Accommodation and food: The volunteers will stay in a local community building. Mattresses and sheets will be provided, and everyone is asked to bring his/her own warm sleeping bags and towels. The food will be supplied for the duration of the work camp and everyone is expected to do his/her fair share of the cooking/cleaning. It would be nice to try new and different dishes, so please remember to bring along recipes and specialities from your own countries.

Terminal: Intl. Airport: Keflavík (KEF), Reykjavík.

Flights arrive at Keflavik International Airport (KEF), just south of Reykjavik. The meeting point is at 08.00 am at the first day of the camp in Tjarnargata 11 which is the city hall of Reykjavik

Additional information: There is an extra participation fee of 450 euros for this workcamp. The fee includes the trip from Reykjavik to Stykkishólmur and back again which is almost 1.000 km in total (excursions included) – the first day

of the camp is for travelling and also the last one. In the first day the group will do the [Golden Circle South Iceland](#) on the way to the camp and in the last day we will do the [Snæfellsnes peninsula excursion](#). This trip includes several stops where you will discover unique Icelandic sights, such as waterfalls, volcanic and geothermal areas, glaciers, lava fields, hot-springs, rhyolite mountain ranges, steam-vents, black beaches or even icebergs.

Project Location: Worldwide Friends Iceland is opening a centre of environment and sustainability near to the crossroads to the West, South and North of Iceland. The centre called BRÚ is in the area of Hrutafjordur which is a 36 km long fjord in Hunathing vestra. In the neighbourhood you can find a lot of pure and unspoiled nature, beaches full of driftwood, Snæfellsnes peninsula, glaciers in the highlands, waterfalls, strong rivers, canyons and craters. The purpose of the centre is to protect the nature in the area and to raise the awareness of sustainability among the locals and the visitors which are coming to the area. The house is more than 1.000 m² and has 16 double rooms, two kitchens, several bathrooms and common areas, rooms for workshops and galleries. It has its own generator to produce electricity for heating and daily use.

Work: This camp has different kind of tasks. Some days we will focus on renovation, painting, cleaning and fixing things around and inside the house. We will also do some artwork for example paintings and sculptures made of driftwood. Other days we will clean the coastline and/or plant trees in the area. We will give a special focus on global warming and the volunteers will have workshops about climate changes. The issue of global warming is well known all over the world. The humanity must act in a more environmentally friendly way. The main goal of this project is to improve the environmental education and consciousness of the projects' participants. Within the project we will learn about green energy, sustainable householding, waste treatment, nutrition, the effects of consumption and lots more. If you want to change something, develop solutions or inspire others, you have to understand the issues and tasks first. In addition to the theoretical part we are going to practice sustainable work. For example, planting trees is one of the main exercises of the camps. Planting trees becomes a very useful action against climate change because trees absorb carbon dioxide, clean the air and prevent erosions. Take part in this promising project and spring into action against climate change!

When the forecast for the auroras borealis (Northern lights) are favourable we will go for aurora hunting

This work camp is a way to enjoy an amazing time in Iceland with other international volunteers and to have an incredible experience where participants share their knowledge with each other while they are exploring creativity, environmental issues and intercultural learning.

Leisure: WF Iceland will organize reasonably priced weekend excursions to some of the most popular, beautiful areas and natural wonders that Iceland has to offer. Excursions include unique Icelandic sights, such as waterfalls, volcanic and geothermal areas, glaciers, lava forests, hot-springs, rhyolite mountain ranges, steam-vents or even icebergs. The area around the place is also great for hiking.

We will also concentrate on intercultural learning and exchange. Every evening, volunteers from different countries will be in charge of presenting their country of origin and culture in an informal way. It can be a presentation, a game, theatre – the form of introduction is up to you! Therefore, we encourage you to bring along some food, photos or anything interesting related to your country for a fun and informative evening amongst other volunteers.

Accommodation and Food: Worldwide Friends volunteers stay in the Worldwide Friends sustainable centre offering basic facilities. Beds are provided; however, volunteers should bring their own warm sleeping bags. Wi-fi is available for free. Food is included for the duration of the workcamp; everyone is expected to do their fair share of the cooking and cleaning. Since it is always nice to try new and different dishes, volunteers are encouraged to bring along their favourite recipes from home!

Terminal:

Flights arrive at Keflavik International Airport (KEF), just south of Reykjavik. The meeting point is at 08.00 am at the first day of the camp in Tjarnargata 11 which is the city hall of Reykjavik.

Additional information: There is an extra participation fee of 400 euros for this workcamp. WF will arrange a minibus trip from Reykjavik to Brú and back again which is almost 400 km in total – this trip includes several stops where you will discover unique Icelandic sights, such as waterfalls, volcanic areas and lava fields.

Take part in this promising project and spring into action against climate change!

This work camp is a way to enjoy an amazing time in Iceland with other international volunteers and to have an incredible experience where participants share their knowledge with each other while they are exploring creativity, environmental issues and intercultural learning.

Leisure: WF Iceland will organize reasonably priced weekend excursions to some of the most popular, beautiful areas and natural wonders that Iceland has to offer. Excursions include unique Icelandic sights, such as waterfalls, volcanic and geothermal areas, glaciers, lava forests, hot-springs, rhyolite mountain ranges, steam-vents or even icebergs. The area around the place is also great for hiking.

We will also concentrate on intercultural learning and exchange. Every evening, volunteers from different countries will be in charge of presenting their country of origin and culture in an informal way. It can be a presentation, a game, theatre – the form of introduction is up to you! Therefore, we encourage you to bring along some food, photos or anything interesting related to your country for a fun and informative evening amongst other volunteers.

Accommodation and Food: Worldwide Friends volunteers stay in the Worldwide Friends sustainable centre offering basic facilities. Beds are provided; however, volunteers should bring their own warm sleeping bags. Wi-fi is available for free. Food is included for the duration of the workcamp; everyone is expected to do their fair share of the cooking and cleaning. Since it is always nice to try new and different dishes, volunteers are encouraged to bring along their favourite recipes from home!

Terminal:

Flights arrive at Keflavik International Airport (KEF), just south of Reykjavik. The meeting point is at 08.00 am at the first day of the camp in Tjarnargata 11 which is the city hall of Reykjavik.

Additional information: There is an extra participation fee of 450 euros for this workcamp. WF will arrange a minibus trip from Reykjavik to Brú and back again which is almost 800 km in total – this trip includes several stops where you will discover unique Icelandic sights, such as waterfalls, volcanic areas and lava fields. Please note that the fee includes also the [Golden Circle South Iceland](#) excursion which we will do on the way to the camp.

WF404 Fire - Youth art festival in Hvammstangi 22/07 – 01/08 ART/ENVI 12 vol

Project Location: North-west Iceland offers a huge spectrum of scenery to explore, from the rough coastline to the highlands. Most of the communities are at sheltered coastal sites and really come into their own in summer, when the midnight sun is at its most glorious. Spring, when the sun melts the snow and the land takes on the green of summer, is a time of renewal, travel and being outdoors. Some people go walking into the highlands to view mountains, swimming or fishing, hunting, riding horses, or adventurous trips on the sea, lakes or rivers, waterfalls, glacial rivers, volcanic craters.

There are many places of interest in northwest Iceland. From Brú in the west to Siglufjörður in the east, this sparsely populated part of Iceland covers three districts and one eighth of the country in terms of square kilometres, but the population is only about ten thousand. Inhabited areas include farms, towns and small villages. From a geological point of view northwest Iceland, like the rest of country, is still in its childhood. The landscape varies enormously: mountains, fields, lakes, rivers, marshes, and lava fields.

Hvammstangi is the most densely populated area in the west Húnaþing County. It is a service centre for the surrounding neighbourhood and also a school site and an administrative centre (Bank, Post Office, Health Institute). It has a population of 600 people.

The village has a good harbour and fishing, agriculture along with tourism are the main industry in the area. The cultural life in Hvammstangi is very diverse it offers choirs, a drama society, the Kormákur sports society, a community centre for young people. From Hvammstangi is only a short travel to Vatnsnes with a wealth of varied historical sites, beautiful scenery, great views of the mountains at Strandir and last but not least a seal habitat within easy walking distance.

Work: This camp has different kind of tasks. The work will be divided in two basic fields: Environmental and Cultural. We will help the organizers in the Youth Arts Festival “Fire in Hunaþing” during 4 days from 25th to the 28th of July preparing the event and helping them with some practical work during the festival.

Other days we will clean the coastline and/or plant trees in the area. We will give a special focus on global warming and the volunteers will have workshops about climate changes. The issue of global warming is well known all over the world. The humanity must act in a more environmentally friendly way. The main goal of this project is to improve the environmental education and consciousness of the projects’ participants. Within the project we will learn about green energy, sustainable householding, waste treatment, nutrition, the effects of consumption and lots more. If you want to change something, develop solutions or inspire others, you have to understand the issues and tasks first. In addition to the theoretical part we are going to practice sustainable work. For example, planting trees is one of the main exercises of the camps. Planting trees becomes a very useful action against climate change because trees absorb carbon dioxide, clean the air and prevent erosions. Take part in this promising project and spring into action against climate change!

This work camp is a way to enjoy an amazing time in Iceland with other international volunteers and to have an incredible experience where participants share their knowledge with each other while they are exploring creativity, environmental issues and intercultural learning.

CAMPS IN THE EAST OF ICELAND

WF39 Eistnaflug – Heavy metal rock festival 05/07 – 13/07

FEST /ART/MANU

20 vol

Project and location: Neskaupstaður is a medium-sized town by Icelandic standards. With its 1,420 inhabitants, it has the largest population in the East Fjords. The town has been growing and prospering since the early 1900's and is almost completely self-sufficient thanks to the fishing industry. Sitting in the middle of nowhere, away from other villages and communities, the town is equipped with all the necessary facilities and stores: a bakery, a local dairy, supermarkets, banks, a post office, a school, a sports hall, a swimming pool, a church, a hospital, a harbour, an airstrip, a hotel, a jazz club, a rescue centre, etc. As a matter of fact, it has all the services and professionals you would expect in a larger town, with the exception of an optician! In the east of the town, a wildlife reserve and a large recreational area face the ocean. In the lower section of the reserve called Hagi lies the famous Páskahellir (Easter Cave), a rock vault over the shore. Holes left by thick, 10 to 12-million-year-old tree trunks can be seen inside the vault and, in true Icelandic spirit, various folk tales are associated with the cave. Neskaupstaður can be reached only by driving through a one-way tunnel over the highest year-round pass in Iceland.

Eistnaflug is a metal festival in Iceland that has taken place annually since the summer of 2005. Eistnaflug is an indoor festival situated in Neskaupstaður, a quaint little town located on the Norðfjörður fjord on the Eastern coast of Iceland, 700 km away from Reykjavik. It started out as a small one-day metal festival on 27 August 2005, but has since grown into a four-day festival where metal, hardcore, punk, rock and indie bands share the stage. The line-up usually consists of 30-40 bands, most of which are Icelandic.

Musically, Eistnaflug is also a remarkable melting pot, with a few selected foreign acts going up against a massive selection of musicians Iceland's music scene has to offer. There are no boundaries – from indie rock and hardcore to black metal – everything is accepted and embraced at Eistnaflug.

Work: Volunteers will help the organisers of the festival with different tasks. For example, they will take care of the venues before and after the concerts, control access to the festival area and prepare the camping site. They will assist the local organisation in keeping the area clean during the festival.

Leisure time: Worldwide Friends volunteers have free access to the local geothermally-heated swimming pool in Neskaupstadur. Traditionally, natural pools have played an important social role in Icelandic culture. Most Icelandic pools offer indoor and outdoor swimming, as well as hot tubs and saunas or steam rooms.

WF Iceland will also organise reasonably-priced weekend excursions to some of the most popular, beautiful areas and natural wonders that Iceland has to offer. Excursions include unique Icelandic sights, such as lagoons, waterfalls, volcanic and geothermal areas, glaciers, lava forests, hot-springs, rhyolite mountain ranges or steam-vents. Take a look at <http://wf.is/excursions/>

Volunteers will also have free access to the concerts during the festival.

Accommodation and food: Volunteers will be staying in a house owned by the local community in Neskaupstaður / Eskifjordur offering basic facilities. Mattresses are provided; however, everyone is asked to bring their own warm sleeping bags. Volunteers will shower at the local swimming pool and sports centre near the house. It is also possible sleep in tents for one or two nights during the festival to get into the right spirit.

Food is included for the duration of the workcamp, however, everyone is expected to do their fair share of the cooking and cleaning. Since it is always nice to try new and different dishes, volunteers are encouraged to bring along their favourite recipes from home!

Language: A basic knowledge of English is required for this workcamp.

Requirements: No special requirements

Terminal: Intl. Airport: Keflavík (KEF), Reykjavík.

Flights arrive at Keflavik International Airport (KEF), just south of Reykjavik. The meeting point is at 08.00 am at the first day of the camp in Tjarnargata 11 which is the city hall of Reykjavik

Additional information: There is an extra participation fee of 450 euros for this workcamp. The fee includes the trip from Reykjavik to Stodvarfjordur and back again which is almost 1,400 km in total and takes 2 full days (the first day of the camp and the last one). On the way to the camp, we will drive through the south to the east of the island. After the camp, we will drive through the north and west to Reykjavik (**if road conditions are favourable**). This trip includes several stops where you will discover unique Icelandic sights, such as glacial lagoons, waterfalls, volcanic and geothermal areas, glaciers, lava fields, hot-springs, rhyolite mountain ranges, steam-vents or even icebergs.

Project and location: Scoured by Ice Age glaciers, the dramatic east coast boasts long, narrow fjords with steep sides and jagged peaks which contrast with inland fertile farmlands. Natural harbours depict postcard-like fishing villages and seemingly never-ending roads cross the region, providing beautiful views.

"Fjarðabyggð" is an association of villages in the Eastern fjords of Iceland. It includes the towns of Eskifjörður, Fáskrúðsfjörður, Mjóifjörður, Neskaupstaður, Reyðarfjörður, Breiðdalsvík and Stöðvarfjörður, all tiny fishing villages with steep mountains towering just behind the houses. In this area you will see some of the features that make Iceland a unique place in the world: spectacular fjords with a rich sea life, a great variety of birdlife and countless breathtaking hiking paths. You will explore the area during your stay in the east.

Work: Volunteers will 5 hours of environmental work during weekdays for example cleaning the coastline and rivers, planting trees and flowers, taking down old fences, removing lupines or other plants and fixing hiking paths. The work depends in the need of the local community. We also have the option to do a little bit of renovation in the house or taking care of the garden if needed.

For two hours a day from Monday to Thursday we will give a special focus on global warming and the volunteers will have workshops about climate changes. The issue of global warming is well known all over the world. The humanity must act in a more environmentally friendly way. The main goal of this project is to improve the environmental education and consciousness of the projects' participants. Within the project we will learn about green energy, sustainable householding, waste treatment, nutrition, the effects of consumption and lots more. If you want to change something, develop solutions or inspire others, you have to understand the issues and tasks first. In addition to the theoretical part we are going to practice sustainable work. For example, planting trees is one of the main exercises of the camps. Planting trees becomes a very useful action against climate change because trees absorb carbon dioxide, clean the air and prevent erosions. Take part in this promising project and spring into action against climate change!

Our work will also depend on weather conditions, which is why we must be flexible. You should be prepared for unfriendly weather, but hopefully, the weather will be nice most of the time. This is a perfect camp for people who like outdoor work and physical challenges. Working hours are about 5 hours a day, 5 days a week.

Leisure: The area in the east is also good for hiking, so please bring your hiking shoes. There is a free entrance to the local swimming pool from the middle of June until the middle of September.

WF Iceland will organise reasonably-priced weekend excursions to some of the most popular, beautiful areas and natural wonders that Iceland has to offer. Excursions include unique Icelandic sights, such as waterfalls, volcanic and geothermal areas, glaciers, lava forests, hot-springs, rhyolite mountain ranges, steam-vents or even icebergs.

We will also concentrate on intercultural learning and exchange. Every evening, volunteers from different countries will be in charge of presenting their country of origin and culture in an informal way. It can be a presentation, a game, theatre – the form of introduction is up to you! Therefore, we encourage you to bring along some food, photos or anything interesting related to your country for a fun and informative evening amongst other volunteers.

This workcamp gives you the opportunity to spend an amazing time in Iceland with other international volunteers and to have an incredible experience where participants share their knowledge with each other while exploring creativity, environmental issues and intercultural learning.

Accommodation and food: Worldwide Friends volunteers will be staying in the WF house in Stodvarfjordur. They will share apartment with four bedrooms, big living room fully equipped kitchens, showers and toilets. Beds are provided; however, volunteers should bring their own warm sleeping bags or borrow one from WF if they don't want to bring it. Wireless internet access is provided free of charge.

Food is included for the duration of the workcamp, however, everyone is expected to do their fair share of the cooking and cleaning. Since it is always nice to try new and different dishes, volunteers are encouraged to bring along their favourite recipes from home!

Please keep in mind that there is another apartment in the house as well on the second floor that is also used for international volunteers.

Language: A basic knowledge of English is required for this workcamp.

Requirements: No special requirements

Terminal: Intl. Airport: Keflavík (KEF), Reykjavík.

Flights arrive at Keflavik International Airport (KEF), just south of Reykjavik. The meeting point is at 08.00 am at the first day of the camp in Tjarnargata 11 which is the city hall of Reykjavik

Additional information: There is an extra participation fee of 450 euros for this workcamp. The fee includes the trip from Reykjavik to Stodvarfjordur and back again which is almost 1,400 km in total and takes 2 full days (the first day of the camp and the last one). On the way to the camp, we will drive through the south to the east of the island. After the camp, we will drive through the north and west to Reykjavik (**if road conditions are favourable**). This trip includes several stops where you will discover unique Icelandic sights, such as glacial lagoons, waterfalls, volcanic and geothermal areas, glaciers, lava fields, hot-springs, rhyolite mountain ranges, steam-vents or even icebergs.

CAMPS IN THE NORTH OF ICELAND

WF264	Pure nature near to the Arctic Circle	08/08 – 18/08	ENVI / MANU	8 vol

Project and location: To truly sense the remote beauty of the north-east, the charming little fishing village of Langanesbyggd on the north-eastern coast is the right place to go. The community with its 450 inhabitants has two villages Þórshöfn and Bakkafjörður and it lies at the very tip of the Langanes peninsula. There are plenty of outdoor activities to choose from: hiking, salmon and trout fishing, as well as horse trekking in Iceland's most astonishing landscape. The Langanes Peninsula is also one of the best areas to spot Iceland's rich and varied birdlife. Þórshöfn is within driving distance of some of Iceland's most prized natural pearls, such as Myvatn, renowned for its geothermal activity, and Dettifoss, one of Europe's highest and most spectacular waterfalls. This village has a beautiful natural harbour and the inhabitants' livelihood depends mostly on fishing, fish processing and commerce.

For additional information, visit: <http://www.langanesbyggd.is/category.php?catID=17>.

Work: During the workcamp we will do different kind of environmental work, for example clean the coastline, plant trees and maintaining hiking paths.

Our work will also depend on weather conditions and that's why we have to be flexible. Please keep in mind that the work might be physically hard, and you should be prepared for unfriendly weather, even though, hopefully, it will be nice most of the time. This is a perfect camp for people who like outdoor work and physical challenges.

Within the project we will have educational sessions to learn about green energy, sustainable householding, waste treatment, nutrition, the effects of consumption and lots more. If you want to change something, develop solutions or inspire others, you must understand the issues and tasks first. Take part in this promising project and spring into action against climate change!

Leisure time: Worldwide Friends volunteers have free access to the local geothermal-heated swimming pool in the village. Traditionally, natural pools have played an important social role in Icelandic culture.

Some leisure activities will be organized by the local community. The area around the village is also good for hiking so please bring your hiking shoes.

Accommodation and food: The volunteers will stay in a local community building in Þórshöfn and/or Bakkafjörður. Mattresses and sheets will be provided, and everyone is asked to bring his/her own warm sleeping bags and towels. The food will be supplied for the duration of the work camp and everyone is expected to do his/her fair share of the cooking/cleaning. It would be nice to try new and different dishes, so please remember to bring along recipes and specialities from your own countries.

Terminal: Intl. Airport: Keflavík (KEF), Reykjavík.

Flights arrive at Keflavik International Airport (KEF), just south of Reykjavik. The meeting point is at 08.00 am at the first day of the camp in Tjarnargata 11 which is the city hall of Reykjavik

Additional information: There is an extra participation fee of 450 euros for this workcamp. The fee includes the trip from Reykjavik through the West and the North to Raufarhöfn and back again which is almost 1,400 km in total and takes 2 full days (the first day of the camp and the last one). This trip includes several stops where you will discover unique Icelandic sights, such as waterfalls, volcanic and geothermal areas, lava fields, hot-springs and rhyolite mountain ranges.

JOURNALISM AND PHOTOGRAPHING CAMPS ON THE MOVE

WF314	Journalism and photographing on the move	15/11 – 24/11	ART/STUDY	8 vol

Project location: This camp takes place in the West and the North of Iceland, so the participants will get the opportunity to go around during the camp. In the period from January to the end of April you will probably be able to discover the Aurora Borealis during the project.

In **the West** you will visit the centre called BRÚ. It is located in the area of Hrutafjordur which is a 36 km long fjord in Húnaþingi vestra. In the neighbourhood you can find a lot of pure and unspoiled nature, beaches full of driftwood, Snæfellsnes peninsula, glaciers in the highlands, waterfalls, strong rivers, canyons and craters. The purpose of the centre is to protect the nature and to raise the awareness of sustainability among the locals and the visitors who are coming to the area.

In **the North** we stay in the village of Raufarhöfn. This community lies farthest north in Iceland. It is in the eastern part of Melrakkasletta close to the Arctic Circle. The population of Raufarhöfn is about 200 and most of the people there earn their living from fishing and fish processing. The harbour is very beautiful and partly shaped by nature itself. A wide and untouched open area surrounds the village with a lot of birds and varied vegetation.

Please note that the schedule for the camps will be flexible and made according to the weather forecast and road conditions with a short notice.

Work: Every year WF Iceland hosts hundreds of international volunteers participating in projects all around the island. WF Iceland publishes a magazine called UNA, where people can read about the life of the organisation <https://wf.is/category/extras/>

In the beginning of the project, volunteers will receive an introduction about the tasks - afterwards we will choose a topic for the magazine. This is a great opportunity to get to know Reykjavik and the area around it in a different way. The group will take photos, create videos and conduct interviews with volunteers, local hosts and people living in the area. The outcome will be published in the UNA WF magazine.

The volunteers will also document the work of the association in all camps running throughout the same period with a photo-reportage and they will publish it on WF social media such as Facebook and Instagram. At the end of the project, we will prepare the final version of the magazine and publish it online.

We will give a special focus on global warming during the camp. The volunteers will have workshops about climate change. The issue of global warming is well known all over the world. The humanity must act in a more environmentally friendly way. The main goal of this project is to improve the environmental education and consciousness of the projects' participants. Within the project we will learn and write about green energy, sustainable householding, waste treatment, nutrition, the effects of consumption and lots more. If you want to change something, develop solutions or inspire-vetcom others, you have to understand the issues and tasks first. Take part in this promising project and spring into action against climate change!

Leisure: We will also focus on intercultural learning and exchange. Every evening, volunteers from different countries will present their country of origin and culture in an informal way. It can be a presentation, a game, theatre – the form of introduction is up to you! Therefore, we encourage you to bring along some food, photos or anything interesting related to your country for a fun and informative evening amongst other volunteers.

This workcamp gives you the opportunity to spend an amazing time in Iceland with other international volunteers and to have an incredible experience where participants share their knowledge with each other while exploring creativity, environmental issues and intercultural learning.

Accommodation and food: Worldwide Friends volunteers will be staying in the houses of Worldwide Friends in different parts of the island. Volunteers need to bring their own sleeping bags and towels, but beds/mattresses and bed sheets are provided. Wireless internet access is provided free of charge.

Food is included for the duration of the workcamp; however, everyone is expected to do their fair share of the cooking and cleaning. Since it is always nice to try new and different dishes, volunteers are encouraged to bring along their favourite recipes (and spices) from home!

Requirements: There are no requirements but some volunteers with good computer skills, who are interested in journalism and/or photography, are needed for this camp. You should bring your camera and your laptop with you.

Terminal: Flights arrive at Keflavik International Airport (KEF), just south of Reykjavik. The meeting point is at 08.00 am at the first day of the camp in Tjarnargata 11 which is the city hall of Reykjavik.

Additional information: There is an extra participation fee of 450 euros for this workcamp. The fee includes all trips around the ring road of Iceland.

WF313	Journalism and photographing on the move	15/09 – 24/09	ART/STUDY	5 vol

Project location: This camp takes place in five different places in Iceland. Reykjavik the capital, Brú Sustainable center in the West, Stodvarfjordur in the East and Raufarhöfn in the North of Iceland, so the participants will get the opportunity to go around during the camp.

Brú - Worldwide Friends Iceland is opening in May a centre of environment and sustainability near to the crossroads to the West, South and North of Iceland. The centre called BRÚ is in the area of Hrutafjordur which is a 36 km long fjord in Hunathing vestra. In the neighbourhood you can find a lot of pure and unspoiled nature, beaches full of driftwood, Snæfellsnes peninsula, glaciers in the highlands, waterfalls, strong rivers, canyons and craters. The purpose of the centre is to protect the nature in the area and to raise the awareness of sustainability among the locals and the visitors which are coming to the area. The house is more than 1.000 m² and has 16 double rooms, two kitchens, several bathrooms and common areas, rooms for workshops and galleries. It has its own generator to produce electricity for heating and daily use.

Stodvarfjordur: Scoured by Ice Age glaciers, the dramatic east coast boasts long, narrow fjords with steep sides and jagged peaks which contrast with inland fertile farmlands. Natural harbours depict postcard-like fishing villages and seemingly never-ending roads cross the region, providing beautiful views.

“Fjarðabyggð” is an association of villages in the Eastern fjords of Iceland. It includes the towns of Eskifjörður, Fáskrúðsfjörður, Mjóifjörður, Neskaupstaður, Reyðarfjörður, Breiðdalsvík and Stöðvarfjörður, all tiny fishing villages with steep mountains towering just behind the houses. In this area you will see some of the features that make Iceland a unique place in the world: spectacular fjords with a rich sea life, a great variety of birdlife and countless breath-taking hiking paths. You will explore the area during your stay in the east.

Raufarhöfn: The village of Raufarhöfn is the community that lies farthest north in Iceland. It is located in the eastern part of Melrakkasletta close to the Arctic Circle. The population of Raufarhöfn is about 200 and most of the people there earn their

living from fishing and fish processing. The harbor is very beautiful and partly shaped by nature itself. A wide and untouched open area surrounds the village with a lot of birds and varied vegetation. In summer one will observe wild migratory birds within the village being a part of the village life with the villagers most often waking up in the morning to the songs of birds. The coastline with its inlets and creeks is filled with driftwood and reaches out into the Arctic Sea. Away and on the surface of the sea various sea-birds will be spotted and an occasional seal. On the beach waders strut and inland on the grassy moorlands there are dozens of lakes filled with trout. In the vicinity many species of ducks, waders and species that favor heaths and moorlands may be observed.

Work: Every year WF Iceland hosts hundreds of international volunteers participating in projects all around the island. WF Iceland publishes a magazine called UNA, where people can read about the life of the organisation <https://wf.is/category/extras/>

In the beginning of the project, volunteers will receive an introduction about the tasks - afterwards we will choose a topic for the magazine. This is a great opportunity to get to know Reykjavik and the area around it in a different way. The group will take photos, create videos and conduct interviews with volunteers, local hosts and people living in the area. The outcome will be published in the UNA WF magazine.

The volunteers will also document the work of the association in all camps running throughout the same period with a photo-reportage and they will publish it on WF social media such as Facebook and Instagram. At the end of the project, we will prepare the final version of the magazine with the WF editor located in Reykjavik and publish it online.

We will give a special focus on global warming during the camp and most of the articles in the newsletter should be about that topic. The issue of global warming is well known all over the world. The humanity must act in a more environmentally friendly way. The main goal of this project is to improve the environmental education and consciousness of the projects' participants. Within the project we will learn and write about green energy, sustainable householding, waste treatment, nutrition, the effects of consumption and lots more. If you want to change something, develop solutions or inspire others, you must understand the issues and tasks first. Take part in this promising project and spring into action against climate change!

Please notice that there are two camps with five participants each starting at the same dates. The two camps will spend one day together in Reykjavik in the beginning of the project and one day in the middle of the project. They will have the same tasks but the route during the project is the opposite.

Leisure: We will also focus on intercultural learning and exchange. Every evening, volunteers from different countries will present their country of origin and culture in an informal way. It can be a presentation, a game, theatre – the form of introduction is up to you! Therefore, we encourage you to bring along some food, photos or anything interesting related to your country for a fun and informative evening amongst other volunteers.

This workcamp gives you the opportunity to spend an amazing time in Iceland with other international volunteers and to have an incredible experience where participants share their knowledge with each other while exploring creativity, environmental issues and intercultural learning.

Accommodation and food: Worldwide Friends volunteers will be staying in the houses of Worldwide Friends in different parts of the island. Volunteers need to bring their own sleeping bags and towels, but beds/mattresses and bed sheets are provided. Wireless internet access is provided free of charge.

Food is included for the duration of the workcamp; however, everyone is expected to do their fair share of the cooking and cleaning. Since it is always nice to try new and different dishes, volunteers are encouraged to bring along their favourite recipes (and spices) from home!

Requirements: Good level of English is required. There are no other requirements but some volunteers with good computer skills, who are interested in journalism and/or photography, are needed for this camp. You should bring your camera and/or your laptop with you.

Terminal: Flights arrive at Keflavik International Airport (KEF), just south of Reykjavik. The meeting point is at 08.00 am at the first day of the camp in Tjarnargata 11 which is the city hall of Reykjavik.

Additional information: There is an extra participation fee of 500 euros for this workcamp. The fee includes all trips around the ring road of Iceland.

ON THE MOVE TEENAGE CAMPS

WF500 Summer solstice on the move around Iceland

18/06 – 27/06

ENVI/EDU 8 vol 16 – 18 YEARS

Project and location: The participants will travel around Iceland and stay in three different places – Brú in the North west, Raufarhöfn in the North and Stodvarfjordur in the East.

Brú - Worldwide Friends Iceland is opening in May a centre of environment and sustainability near to the crossroads to the West, South and North of Iceland. The centre called BRÚ is in the area of Hrutafjordur which is a 36 km long fjord in Hunathing vestra. In the neighbourhood you can find a lot of pure and unspoiled nature, beaches full of driftwood, Snæfellsnes peninsula, glaciers in the highlands, waterfalls, strong rivers, canyons and craters. The purpose of the centre is to protect the nature in the area and to raise the awareness of sustainability among the locals and the visitors which are coming to the area.

The house is more than 1.000 m² and has 16 double rooms, two kitchens, several bathrooms and common areas, rooms for workshops and galleries. It has its own generator to produce electricity for heating and daily use.

Stodvarfjordur: Scoured by Ice Age glaciers, the dramatic east coast boasts long, narrow fjords with steep sides and jagged peaks which contrast with inland fertile farmlands. Natural harbours depict postcard-like fishing villages and seemingly never-ending roads cross the region, providing beautiful views.

"Fjarðabyggð" is an association of villages in the Eastern fjords of Iceland. It includes the towns of Eskifjörður, Fáskrúðsfjörður, Mjóifjörður, Neskaupstaður, Reyðarfjörður, Breiðdalsvík and Stöðvarfjörður, all tiny fishing villages with steep mountains towering just behind the houses. In this area you will see some of the features that make Iceland a unique place in the world: spectacular fjords with a rich sea life, a great variety of birdlife and countless breath-taking hiking paths. You will explore the area during your stay in the east.

Raufarhofn: The village of Raufarhöfn is the community that lies farthest north in Iceland. It is located in the eastern part of Melrakkasletta close to the Arctic Circle. The population of Raufarhöfn is about 200 and most of the people there earn their living from fishing and fish processing. The harbor is very beautiful and partly shaped by nature itself. A wide and untouched open area surrounds the village with a lot of birds and varied vegetation. In summer one will observe wild migratory birds within the village being a part of the village life with the villagers most often waking up in the morning to the songs of birds. The coastline with its inlets and creeks is filled with driftwood and reaches out into the Arctic Sea. Away and on the surface of the sea various sea-birds will be spotted and an occasional seal. On the beach waders strut and inland on the grassy moorlands there are dozens of lakes filled with trout. In the vicinity many species of ducks, waders and species that favor heaths and moorlands may be observed.

Work: Volunteers will have environmental educational sessions in different areas in Iceland. We will give a special focus on global warming and the volunteers will have workshops about climate changes. The issue of global warming is well known all over the world. The humanity must act in a more environmentally friendly way. The main goal of this project is to improve the environmental education and consciousness of the projects' participants. Within the project we will learn about green energy, sustainable householding, waste treatment, nutrition, the effects of consumption and lots more. If you want to change something, develop solutions or inspire others, you must understand the issues and tasks first. In addition to the theoretical part we are going to practice sustainable work. For example, planting trees is one of the main exercises of the camps. Planting trees becomes a very useful action against climate change because trees absorb carbon dioxide, clean the air and prevent erosions. Take part in this promising project and spring into action against climate change!

During the camp our teenagers will also have an exploration of photography in the digital age. They will get a hands-on instruction and experience with the tools necessary to research, compose, capture, and refine digital photographic projects. Please notice that we do not have a professional photographer to guide them.

We will also focus on intercultural learning and exchange. Every evening, teenagers from different countries will present their country of origin and culture in an informal way. It can be a presentation, a game, theatre – the form of introduction is up to you! Therefore, we encourage you to bring along some food, spices, photos or anything interesting related to your country for a fun and informative evening amongst other volunteers.

This camp gives you the opportunity to spend an amazing time in Iceland with other international participants and to have an incredible experience where participants share their knowledge with each other while exploring creativity, environmental issues and intercultural learning.

Leisure: The participants will travel all around Iceland and they will also do some leisure activities for example kayaking and going to different swimming pools in Iceland. The areas are also good for hiking, so please bring your hiking shoes.

Accommodation and food: Worldwide Friends teenagers will be staying in the WF houses in Brú, Stodvarfjordur and Raufarhofn. The houses have several dormitories, big living room and fully equipped kitchen, showers and toilets. Beds are provided; however, volunteers should bring their own warm sleeping bags or borrow one from WF if they don't want to bring it. Wireless internet access is provided free of charge.

Food is included for the duration of the camp, however, everyone is expected to do their fair share of the cooking and cleaning. Since it is always nice to try new and different dishes, volunteers are encouraged to bring along their favourite recipes from home!

Language: A basic knowledge of English is required for this workcamp.

Requirements: No special requirements

Terminal: Intl. Airport: Keflavík (KEF), Reykjavík.

Flights arrive at Keflavik International Airport (KEF), just south of Reykjavik. The meeting point is at 08.00 am at the first day of the camp in Tjarnargata 11 which is the city hall of Reykjavik. Worldwide Friends can also pick up the teenagers at the Keflavik airport free of charge.

Additional information: There is an extra participation fee of 600 euros for this workcamp. The fee includes the Iceland around tour. If the teenagers arrive earlier to Iceland or leave later than we can offer them accommodation for 30 euro per night and meals are included.

We will drive along road number one. This trip includes several stops where you will discover unique Icelandic sights, such as glacial lagoons, waterfalls, volcanic and geothermal areas, glaciers, lava fields, hot-springs, rhyolite mountain ranges, steam-vents or even icebergs.

Please note that we will start the travel on the first day of the camp at 09.00 am

Practical information about Veraldarvinir – Worldwide Friends Iceland

Veraldarvinir - Worldwide Friends (WF Iceland) was founded in 2001 as a non-profit, non-governmental organisation promoting peace, friendship and international understanding.

We host short-term voluntary work camps, mid and long-term voluntary projects (3-6 months), seminars (suitable for both young people and adults), youth exchanges, educational programmes and campaigns in Iceland. We also send abroad Icelandic volunteers who wish to have similar experiences. Furthermore, we host and send volunteers through the Youth in action programme.

Veraldarvinir/WF Iceland aims at:

- Promoting peace and friendship
- Promoting inter-cultural learning, exchange and awareness
- Preserving Icelandic nature and raising awareness about environmental issues
- Promoting voluntary work and a culture of volunteering

Our headquarters are located at the following address:

WF Iceland / Veraldarvinir
Fjarðarbraut 54
755 Fjarðabyggð
Iceland

General information about our international workcamps:

Study theme 2020: This year all our projects will have a special focus on how to prevent global warming in our in our daily life. This means that the camps will be a mixture of practical work and environmental education.

Age limit: In general, volunteers should be at least 18 years old. There is no maximum age limit for the majority of our workcamps. We also host camps for teenagers 14 to 18 years old.

Work: Workcamps typically last 10 to 14 days. Working hours are usually about 20-35 hours a week (five to seven hours a day, five days a week). Any exceptions will be noted in the project descriptions.

Accommodation: In Reykjavik in a farm located in the outskirts of Reykjavik. In the east, they will stay in the Worldwide Friends' house in Stöðvarfjörður. In the North the volunteers will stay in the Worldwide Friends in Raufarhofn. In Hveragerði the volunteers stay in a bungalow with double rooms. We also run camps in Brú in Hrótafjörður where we have our sustainable centre in the North west of Iceland

Food: Food will be provided; however, volunteers are expected to do their fair share of the cooking and cleaning.

Camp language: English is the language spoken in our camps. Volunteers are required to have at least a basic knowledge of the English language. Should the language requirements be higher, this will be specified in the workcamp description.

Camp leaders: There are always one, two or even more leaders for each camp, depending on the size of the group. Leaders represent the link between the hosting community and the group of volunteers. They coordinate the work, organise free time activities and plan excursions, shopping and cooking sessions. Apart from these additional responsibilities, they are equal to the other volunteers. Most of our camp leaders are from other countries, as we are very open-minded in hosting international leaders from other organisations. All our leaders start their program with one week of training.

Extra participation fee: We charge an extra participation fee for all our camps. Volunteers are expected to pay the workcamp fee in cash (EUR, USD or ISK) upon their arrival to the camp.

WF Iceland charges a participation fee for the following reasons:

- a. Lack of support from the government and other sources;
- b. For some of our workcamps, WF must supply food, which is quite expensive in Iceland compared to other European countries;
- c. For most of our workcamps located in Reykjavik, WF has to cover both food and accommodation costs;
- d. Most of our partner organizations in other countries cover their administration costs through the fees they charge the volunteers they send abroad. We do not send enough volunteers abroad in order to cover our administrative expenses, so we need to charge a participation fee from the volunteers we receive.

Insurance: Veraldarvinir provides a third part liability during the duration of the camp. WF Iceland does not provide volunteers with a medical insurance. Therefore, we strongly recommend that the volunteers purchase insurance for their stay here in Iceland. European volunteers should bring their European Health Cards (former E111).

Some practical matters

We highly recommend volunteers to bring a sleeping bag, warm and waterproof work clothes, hiking boots and swimming suits. Volunteers are also encouraged to bring information about their country, such as photos, music, songbooks, games or musical instruments.

Volunteers with special needs: Our camps are open to everyone. If you have volunteers with special needs, please contact us. We will do our very best to find a way to host them.

Information sheets

We will send out detailed information sheets with practical information and camp details on the day we accept the volunteers. All our information sheets are also available online.

Our website: www.wf.is

We encourage all our partners and volunteers to check out our website for more information about our projects. There you will find more detailed information, videos and photos from our workcamps.

Our facebook page and Instagram profile are updated by our volunteers, you can check them at www.facebook.com/WFveraldarvinir and www.instagram.com/wf_veraldarvinir/

Arrival and departure

The first day of the camp is arrival day and the last day of the camp is a departure day. If the camp is held in the north, east or west of Iceland, we strongly recommend that volunteers arrive the day before the camp starts and depart the next day after the camp ends. However, if the camp is held in Reykjavik, volunteers can arrive the first day of the camp and depart on the last day of the camp.

Transport to the camp location:

Iceland's public transportation is expensive and not very efficient. We will arrange a minibus trip from Reykjavik to all of our workcamp locations. **The minibus fee is included in the total fee for the workcamp.**

Accommodation before and after the workcamp

WF Iceland is not offering hostel service before or after the workcamps except for the teenagers.
