WORKCAMPS 2020

See the world differently. Join us. Be YAPpy!

YAP – Youth Action for Peace, Italy: a short introduction

Yap - Youth Action for Peace (Italy), founded in 1970, organises international workcamps, seminars, study visits and training courses. These programmes educate young people about peace, dialogue and solidarity through projects of voluntary action and social and cultural development without any links to religion or formal political parties. Its structure is based on a network of local groups and partner associations. YAP is member of CCIVS – Coordinating Committee for International Voluntary Service and full member of ALLIANCE of European Voluntary Service Organisations. In 2019 YAP Italy organised 16 workcamps and it has already successfully organised more than 1000 projects in the past. This including every year about 800 Italian and international volunteers in short, mid- and long-term voluntary service projects, trainings and seminars worldwide.

The aim of the activities, besides the realisation of the projects, is to contribute to the creation of a multicultural society based on dialogue between different people. Our aim is to work at local and global levels.

We believe that the presence of volunteers from various countries and social backgrounds in international projects brings us closer to this goal; thus, allowing local or isolated communities to get in touch with different cultures, and to learn and communicate with them.

We want to promote solidarity in a constructive way, not free assistance: practical help can be useful to overcome emergencies, but we prefer to provide tools and methods that can be used in order to build the Future.

And it is only with the help of our volunteers that we have been able to achieve what we have, no matter how much time and energy they dedicated to the global project of the organization. Thanks to our wonderful volunteers!!! **Grazie a tutti, YAPpy team**

YAP's 2020 Workcamps: common frame and principles

IMPORTANT! By the time of TM, we can present 18 workcamps: 16 for adults (18-30) and 2 TEEN (16-17), however more workcamps may be confirmed later in March - April. As in past years, YAP plans to host in total around 150-170 international volunteers in 2020.

► All YAP workcamps are **international projects**. Age limits for adult camps: Minimum age - **18 y.o.**, maximum age – **30 y.o.** (exceptions are possible). Age limits for TEEN camp: **16-17 y.o.** **Volunteers need to reach the minimum age at the beginning of the camp!!!**

Unfortunately, most of the workcamps' sites and activities are not “accessible” or adapted for volunteers with disabilities.

► YAP strives to create intercultural and mixed groups on the projects as much as possible. We do not accept more than **2-3 people per country/cultural/linguistic group** per project, as long as the size of the group permits, in order to have more cultural diversity, better quality of the project and keep up the group dynamics.

► The basic timetable on YAP workcamps is about 30-35 hours of work per week but the necessities of the project can bring the volunteers to work more (rarely less). **We DO NOT organise voluntourism projects.** Any individual touristic activities should be done before or after the project and we will always expect the volunteers to be available and dedicated to the activities of the project for the duration of the workcamp. We will never hesitate, after consultation with the sending organisation, to ask a volunteer to leave the project if we consider his/her activity, behaviour or motivation doesn't fit the needs and nature of the project. Please inform your volunteers about it before their departure.

► **YAP project-related motivation form is required for all our workcamps!!!**

► The common language of the workcamps is **English**, some Italian can be used by local people.

► In most of the projects' daily activities and tasks, free time and general organisation will be decided among the community and the group of international volunteers. It will be facilitated by the coordinator following the needs of the project and managed by the group. We expect each workcamp to create a strong team of volunteers, for the benefit of the project and the local community.

► YAP automatically insures all the volunteers hosted in our workcamps under SCI scheme. The details are provided at the end of this programme. Volunteers from the European Union should bring with them a European Health Insurance Card (EHIC) which will entitle them to urgent medical treatment. Volunteers are covered by our medical insurance policy once they arrive on the project. However, they are **STRONGLY** advised to take out their own insurance for travel, health, luggage and other personal possessions especially for the journeys to and from the project. Neither YAP nor the host organisation can be held responsible for volunteers' personal possessions while they are on the project!

► There is always at least one coordinator per camp from or trained by YAP for the whole duration of the project. Far from being an omnipotent and omniscient “leader”, we like to see him/her as a facilitator, experienced volunteer with more work to do and more responsibilities toward the global project.

CPI02 MAKE IT BLUE
DATES: 20/06 – 02/07
WORK: ENVI
VOLS: 7
AGE: 18-30
LOCATION: Minori, Salerno
BACKGROUND: The workcamp is organized by YAP – Youth Action for Peace with ACARBIO (Associazione Costiera Amalfitana Riserva Biosfera) in collaboration with the local municipality of Minori. ACARBIO is an NGO engaged in the candidature of the Amalfi Coast as Biosphere Reserve within the MAB-UNESCO programme. Its activities focus on the conservation and safeguard of the natural and historical-cultural heritage of the Amalfi Coast, by promoting any kind of sustainable development with projects regarding the environment, biodiversity, tourism, local tradition, mobility, green energy. Among the many activities of the organization, international workcamps are becoming more and more

important. Since 2015 ACARBIO organized 16 workcamps about cleaning of green areas, the beach, workshops for kids on recycling and up-cycling, building natural houses, etc. These projects were organized under the name of Make it Green and Make it Blue. As ACARBIO has worked these years promoting a more sustainable approach towards Mother Nature, we believe this project represents an opportunity to raise awareness about environmental protection at local level, and at the same time promoting volunteering, international cooperation and the involvement of youth all over the world. More information about our previous Make it Blue workcamps can be found here:

<https://www.facebook.com/MakeitBlueAcarbion/> (pictures and videos)

WORK: International volunteers will give their contribution to the achievement of the objectives of the project. The main activities will be focused on supervising the public beach, providing assistance to the bathers by keeping the beach clean from garbage and documenting the quantities and the type of trash they find, empty the trash bins, coordinate the usage of the umbrella-beach holders and make sure they are in their places, clean the main dock of the city from the sand, help building up a small working space on the beach, organize a small workshop for children to raise awareness about the protection of the sea side and the environment as a whole, draw attention of inappropriate behaviour in the beach and boot up demonstrational as well awareness waking activities. They will be protagonists in the communication activities and will send an important message in favour of the environment. Volunteers will be engaged in work for 6.5 hours a day, for 6 days a week.

ACCOMMODATION: Board and lodging are guaranteed for all participants. Volunteers will stay at one of the local schools, where there will be bathrooms, showers and a kitchen. Public transportations are available for every day's movements.

LOCATION: Minori is a prestigious tourist destination in the Amalfi Coast. It is a small town that counts around 2.800 inhabitants and it is famous for being an ancient vacation destination for Romans. In fact, a well-preserved roman Villa was found in 1932 and now it's one of the main attractions of the place. This town is very famous for its gastronomic tradition as well, being the place where the production of pasta was born and became an art. Minori also offers a beautiful seaside, stunning landscapes, one of the biggest Basilicas of the area and its bell tower. Famous places like Amalfi, Ravello and Positano can be visited. Naples and Salerno are about 1-2 hours away.

TERMINAL: Airport of Naples (closest) or the Airport of Rome. There are public busses that will allow participants to reach the final venue in Minori. From the Airport of Naples there is a direct bus service to the Amalfi Coast. The nearest train station is Salerno, from where a bus leaves to Amalfi, stopping at Minori. Specific instructions on how to reach us will be provided in the info sheet.

Meeting Point: Minori bus station at 06 pm

This work camp is recommended for people who love sea and the nature, who are interested in the topic of sustainable development and protection of biodiversity, who are ready to have a positive attitude towards interdisciplinary practises as well as interculturalism. ACCOMMODATION: The international volunteers will be hosted at the primary school in the city centre along with the national volunteers and the children. The school is equipped with: 5 shared bedrooms that will be appropriately separated for girls and boys, and the kids; bathrooms and a shower for each bedroom + common bathrooms; dining room; kitchen; common areas: two halls for activities; gardens with games around the building; rooms for the children physical therapy. Nowadays it represents a typical mountain town with few inhabitants in winter, a bit more in summer, that struggles to preserve its identity and traditions. Even being part of WWF oasis and owning a huge natural and cultural heritage it is still not well-known for tourists. After the success of the first international workcamp organized together with “ARTETECA Molise” association in 2019, this year the volunteers will go ahead with exploration of this beautiful place, its history, culture and natural landscape.

WORK: Since ancient times, Guardiaregia has been a place of transit and control of the territory. In the surroundings there are still ruins of walls, artistic artefacts, sites of historical value, which however are often hidden in the woods, abandoned, simply forgotten or little known. Under the technical supervision of the staff of Arteteca Molise trained by professors and researchers from the University of Molise and in collaboration with the Municipality of Guardiaregia, international volunteers will walk through the woods, hills and paths of Guardiaregia and 1. recover forgotten heritage and rediscover sites of historical and artistic value; 2. clean up the spontaneous vegetation where possible; 3. make photos, drawings and maps of these places. The aim of the project is to provide the University of Molise, through Arteteca Molise, with useful material for a future drafting of a "map" of the cultural and historical sites of Guardiaregia

that can be used by university researchers for more in-depth studies on the heritage of Guardiaregia.

ACCOMMODATION: Accommodation in shared double tents. Please note that the tents are provided but you must bring your own sleeping bag (warm and thick). The volunteers will have access to the toilets, showers and kitchen in the adjoining building. The volunteers will share the different collective tasks such as cooking and cleaning.

LOCATION: Guardiaregia is a small mountain town of 748 inhabitants in the Province of Campobasso, Molise, southern Italy. In ancient times it was a strongpoint of the Samnites and Romans. The current settlement dates from the medieval Lombard Duchy of Benevento, when a castle was built here to protect Campochiaro. In 1805 the town was hit with a sizable earthquake that destroyed the castle. During the Second World War there was a vast number of immigrants to Canada and the United States. Since 1996 the town together with the neighbour Campochiaro made up the natural oasis of WWF "Riserva Regionale Guardiaregia Campochiaro" with its caves, canyons and waterfalls that now is close to become Matese National Park. Beautiful walkways and viewpoints weave up, down and along the hillsides where you might be lucky enough to spot some of the local wildlife. In their free time the volunteers can go hiking at archaeological sites and / or natural sites, such as chestnut woods, natural caves and mountain pathways.

TERMINAL: Naples airport. There is direct bus from Naples (Piazza Garibaldi) from Monday to Saturday at 16:15, arrival in Guardiaregia at 18:50. More specific info will be provided in the infosheet.

Meeting point: Guardiaregia bus station at 18:50. There is direct bus from NAPOLI (Piazza Garibaldi) from Monday to Saturday at 16:15, arrival in Guardiaregia at 18:50. More specific info in the infosheet.

CPI12 - ROIATE

DATES: 01/08 – 15/08

WORK: ENVI / MANU

VOLS: 10

AGE: 18 -30

LOCATION: Roiate

BACKGROUND: The workcamp is organized by YAP – Youth Action for Peace with Roiate Municipality and "Sentiero Verde" a non profit organisation that since 30 years deals with trekking and ecotourism in Lathium region, creates different extra urban and urban footpaths, organises training courses for mountain guides, promotes sustainable tourism and local development of territory through hiking. Thanks to many previous workcamps we already restored the footpaths and some ancient fountains of Roiate, it's time to make a next step!

WORK: Volunteers will be involved in outdoor activities such as cleaning and maintenance of a fount called "Fonte Roia" from which probably the name "Roiate" derives. Secondly, the international volunteers will help to explore the geological heritage of the territory of Roiate: in the surroundings there are natural karst landforms (limestones and limestone pavements) which need to be photographed and marked on the map with GPS. The aim of this activity is to make a first draft "map" for future creation of a protected karst area in Roiate. Volunteers will be working 6 hours per day under the supervision of local technical leader. Be prepared for physical work and hiking mountain paths every day! Volunteers will also have the chance to meet the local community, participating in meetings and events and helping Sentiero Verde in hiking events. LOCATION: Roiate is a small isolated and picturesque village, about 60 km from Rome, surrounded by the natural park of Aniene river. There are some ancient ruins in the park: this territory has been inhabited since the pre-Roman era and you can still observe pieces of polygonal walls (aka "Cyclopean masonry") built in the Iron Age. In the Middle Age, Roiate fell under control of the monastery of Subiaco and, according to the legend, Saint Benedict from Norcia left his

mark on a stone nearby while lying on it. Ever since the IV century a church and then a convent were built to preserve this stone. The church, devoted to Saint Benedict himself, still exists. Rich natural, cultural and historical heritage ensures the constant interest of pilgrims and hikers in visiting this area thanks to several trekking footpaths across the natural park. Although it's not far from Rome, there is no bus connection after 5 p.m. so It's NOT possible to visit Rome after work or in the free time. Visit to Rome could be arranged only during the free day!! You will have a perfect opportunity to get to know a very friendly local community, to hike every day and discover the local traditional cuisine as well! Old ladies of the village would love to teach you some typical recipes! Please, bring with you typical games, recipes, musical instruments from your country. The best option to arrive in Roiate is to take a direct bus (before 05 pm) from Roma Anagnina bus station [Metro A].

TERMINAL: Roiate bus station. Rome airports (Ciampino, Fiumicino)

Meeting Point: Roiate bus station at 07pm
